light show, will feature all sorts of creepy creatures.

Darkness brings light

BY SHARON KENNEDY WYNNE

Dark magic and creepy creatures from the world of Harry Potter will star in a new light projection show called "Dark Arts at Hogwarts Castle," launching on Saturday at Universal Orlando.

Set inside the Wizarding World of Harry Potter at the Islands of Adventure theme park, the nighttime display will continue on select evenings through Nov. 15, Universal has announced.

The show, which uses hightech projection mapping that makes it look like the castle is moving, will include Death Eaters, Dementors, Arago, mountain trolls and other magical figures dreamed up by author J.K. Rowling.

"Guests will be asked to summon their inner strength and bravely face the Dark Arts and the visage of the powerful Dark wizard Lord Volde-

mort, until the Patronus spell — one of the most famous, difficult and powerful defense of the Dark Arts charms in the wizarding world - is cast," according to a Universal Orlando news release.

That Patronus spell first appeared when "Dark Arts at Hogwarts Castle" debuted at Universal's California theme park last spring. It features (weather permitting) the first use of lighted drones in a nighttime production to add to the special effects. The swirling, flying lights will turn into Harry Potter's Patronus stag during the finale of the show to drive out Dementors.

Universal Orlando's holiday celebration, highlighting the "Magic of Christmas at Hogwarts Castle" show, starts Nov. 16.

The Dark Arts at Hogwarts Castle, Universal Orlando's new

BY SHARON KENNEDY WYNNE

Tampa Theatre's annual Halloween series, A Nightmare on Franklin Street, will return this year with more films, tours and events. And for the first time, two "spine-chilling" live shows - from popular horror-comedy podcast The Last Podcast on the Left and Barry Bostwick, the star of The Rocky Horror Picture

Show — are part of the tradition. The Last Podcast on the Left. featuring hosts Ben Kissel, Marcus Parks and Henry Zebrowski, will bring its live version to the historic movie house on Oct. 18.

The show finds laughs in the dark side of humanity on a range of topics, from werewolves to war crimes. It pulls more than one million downloads per episode, with the back catalog drawing 11 million downloads a month.

In addition to true-crime stories and news of the weird, *The* Last Podcast on the Left covers interviews with authors and paranormal-research figures. Tickets range from \$29.50 to \$39.50; \$150 for the VIP meet and greet.

Then at 7 p.m. and midnight Oct. 19, Tampa Theatre is scheduled to host a live performance of The Rocky Horror Picture Show, the 1975 comedy musical set in the mad scientist home of Dr. Frank N. Furter. Barry Bostwick, who starred as Brad and went on to play the mayor on sitcom Spin City, will give a preshow talk about his experience making the cult hit movie. Tickets are \$26; \$101 for the VIP meet and greet.

Bring on a cinematic battle

Five things we want to see in the 2022 sequel to *Black Panther*.

BY DAVID BETANCOURT

One of the biggest announcements at Disney's D23 Expo last weekend was the date of the Black Panther's return to the big screen. Don't expect to be shouting "Wakanda forever" at a theater near you anytime soon: Black Panther director Ryan Coogler appeared onstage alongside Marvel Studios mastermind Kevin Feige to announce that the release is three years away: May 6, 2022.

Feige told the crowd that Coogler has turned in a treatment for *Black Panther* II and that they already have a title, but the two weren't ready to reveal any hints just yet. We'll have to wait to see whether my hunch is right and the title will be Black Panther: I'm Back for More Cash, a nod to the Tony Kornheiser book.

Following up on the 2018 original's \$1.3 billion worldwide and three Academy Awards (after seven nominations) is no simple task, which is why Coogler wanted to let fans know they're taking their time trying to get things right.

And so begins the speculation of what a *Black Panther* sequel can do to top the first. We can at least say we're pretty sure Spider-Man won't be showing up in Wakanda. Although how cool would that have been?

Here are five things we hope to see:

1. Namor the Sub-Mariner

Namor has an intense rivalry with the Black Panther in the pages of Marvel Comics, and fans have been buzzing that he could be the main adversary in Black Panther II. That buzz began during Avengers: Endgame when Okoye (Danai Gurira) reported that Wakanda emotional scenes involved the anceswas monitoring earthquakes under the oceans. Why bring up the ocean (where Namor rules the seas as Atlantean royalty) if it wasn't meant to be explored in film showed both T'Challa and Killa future Black Panther film?

who debuted in 1939, two years before tual guidance in the ancestral plane

Letitia Wright stars as Shuri in *Black* Panther, released in 2018.

Aquaman did at DC Comics. If he is to be Coogler's next Killmonger, Marvel Studios will have to power through the red tape of some dated contracts at Universal, which has Namor's movie rights. Marvel Studios probably wouldn't want Namor in his own movie franchise, given that Warner Bros. and DC Entertainment just made \$1.1 billion worldwide with Aquaman. But we could see a situation where the character appears throughout future Marvel Studios movies. A cinematic battle with the Black Panther would be a great start.

2. Killmonger in the Wakandan ancestral plane

Michael B. Jordan's Killmonger, an easy contender for greatest Marvel Studios villain ever, died in a Wakandan battle at the end of Black Panther, but that doesn't mean we won't see him again. Some of Black Panther's most tral plane, a spiritual locale where the Black Panther can summon the guidance of loved ones who have died. The monger visiting their dead fathers this Namor is a classic Marvel character way. If the Black Panther seeks spiri-

again, could Killmonger be there on the other side awaiting him? Then again, Killmonger told the Black Panther to bury him in the ocean, and if you need a reminder of who is in the ocean, go back to No. 1 on this list. Atlantean technology can do some crazy things.

3. Shuri as the Black Panther

Shuri (Letitia Wright), the genius younger sister of the Black Panther, is one of the Marvel universe's greatest minds, and in the Black Panther comics she is the person who can step into the mantle of the Black Panther should anything happen to her older brother T'Challa. It would be a waste to introduce Shuri to the Marvel Cinematic Universe and not give her this big moment. Especially if, say, T'Challa is temporarily unable to be the Black Panther because of injuries he has suffered in battle with, say, Namor. (Yes, we are really pushing this rivalry.)

4. The cape

When writer Reggie Hudlin and artist John Romita Jr. were beginning their run on Marvel's Black Panther comics back in 2005, Romita had a very important cape question for Hudlin: Did he want a long cape or a short cape? Regardless, there was going to be a cape. Many Black Panther fans consider the cape look to be his best look, but that's not a style that translated to the big screen. Maybe, if even for just a ceremonial event, we can see the cape flapping in Black Panther II.

5. The soundtrack

If you think the soundtrack to *Black* Panther II will be anything less than a banger after the fire that was dropped in 2018, you clearly weren't listening. The only question is whether Kendrick Lamar will return as an artist and producer or whether a new musician will take over. Expect much hotness.

New this week

Motorcyclist, 18, killed in crash on SR 54 in Pasco

BY MEGAN REEVES

sports motorcycle died Monday in a crash off State Road 54 in An 18-year-old man on a Pasco County, according to the

Florida Highway Patrol.

LEGAL NOTICE

Keysean Jeremiah Williams was driving a Suzuki GSX-R600 west in the inside lane of the road about 11:15 a.m. As he approached Boyette Road, a Dodge Caravan in the outside lane attempted to change lanes in front of him, troopers said.

van, driven by 71-year-old John Raymond Ruper, struck the front right side of the motorcycle, according to the Highway Patrol. The impact sent the bike across the median, where it landed on the outside eastbound shoulder of the road.

Williams, of Wesley Chapel, was pronounced dead at the scene. Ruper, of Zephyrhills, suffered minor injuries. No further information was released.

Child protection officer arrested on DUI charge

BY MEGAN REEVES Times Staff Writer

CLEARWATER — An investigations supervisor with the Pinellas County Sheriff's Office was arrested Sunday on a charge of driving under the influence.

Krenek about 6:20 p.m., driving an Infiniti sedan "at excessive speeds" north on U.S. 19, just south of State Road 580. The car was swerving in and out of lanes, according to the Sheriff's Office.

Deputies stopped Krenek, 37, who was alone in the vehicle and identified herself as a Sheriff's Office employee. Her eyes were bloodshot and watery, deputies said, and her breath smelled of alcohol.

Krenek failed field sobriety tests, including a breath sample, which registered her blood alcohol concentration to be 0.28. According to Florida law, a driver is considered impaired at 0.08.

She was placed under arrest Deputies found Samantha and transported to Pinellas County Jail. She is charged with one count of driving under the influence. Krenek was hired by the

Sheriff's Office in 2005 and had been working as a child protection investigation supervisor. In accordance with agency policy, she was immediately fired following her arrest, deputies said.

Man, woman found shot in **Brooksville park**

BY MEGAN REEVES Times Staff Writer

BROOKSVILLE - A man and a woman were found with gunshot wounds at Kennedy Park early Monday, according to the Hernando County Sheriff's Office.

Deputies responded to the park just after midnight, after dispatchers received calls about a shooting in which multiple people were shot.

They arrived to find the man and woman with gunshot wounds, the Sheriff's Office said, and both were transported to local hospitals. Neither victim has been identified, and deputies did not release their current conditions.

Investigators believe the shooter left the park on foot, spokeswoman Denise Moloney said. They are asking for the public's help to find who is responsible.

Deputies are asking anyone with information to contact Detective George Loydgren or Detective Tom Breedlove at (352) 754-6850. To remain anonymous, call Hernando County Crime Stoppers at 1-866-990-8477, or go to www.hernandocountycrimestoppers.com.

Notice of Meeting/Workshop Hearing

OTHER AGENCIES AND ORGANIZATIONS

HDR, Inc.

The FLORIDA DEPARTMENT OF TRANSPORTATION, DISTRICT SEVEN, announces a hearing to which all persons are invited.

DATE AND TIMES: Tuesday, September 24, 2019, open house, 5:30 p.m. – 7:30 p.m.; formal presentation, 6:30 p.m.

PLACE: First Baptist Church of St. Petersburg, Heritage Hall, 1900 Gandy Boulevard N., St. Petersburg, FL 33702 GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT) District Seven invites all persons to a public hearing for the I-275 (SR 93) Design Change Re-evaluation of the Project Development and Environment (PD&E) Study for I-275 (SR 93) from south of 54th South to north of 4th Street North in Pinellas County, Florida (Work Program Segment No.: 424501-1, ETDM12556). The hearing is being conducted to give interested persons an opportunity to express their views concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements.

The Public Hearing will include an open house format from 5:30 p.m. – 7:30 p.m., with a formal presentation starting at 6:30 p.m. During the open house FDOT representatives will be available to answer questions and discuss the project. Exhibits and other project-related materials showing the proposed improvements will be available. Persons may provide oral comments at the hearing or also submit written comments at the hearing or by sending them to Kirk Bogen, P.E., Environmental Management Engineer, FDOT District 7, 11201 N. McKinley Dr., Tampa, FL 33612 or posting a comment on the project website above. All comments must be postmarked or emailed by Friday, October 4, 2019.

Draft study documents and other pertinent information depicting the project's recommendation will be available for review from Wednesday, September 4, 2019, to Friday, October 4, 2019, during hours of operation at the following locations and on the project website, http://active.fdotd7studies.com/i275/54th-to-4th/:

Barbara S. Ponce Public Library, 7770 52nd Street North, Pinellas Park, FL 33781, 727.541.0718

Library Hours: Mon-Thurs 9:00 a.m. – 8:30 p.m.; Fri-Sat. 9:00 a.m. – 5:00 p.m.; Sun 1:00 p.m. – 5:00 p.m.

Florida Department of Transportation, District 7, 11201 N. McKinley Drive, Tampa, FL 33612, 813.975.6000

Business Hours: Mon-Fri 8:00 a.m. – 5:00 p.m.; Sat-Sun Closed

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Alex Henry, Public Involvement Coordinator, at 1(813)975-6405 or by email at alex.henry@dot.state.fl.us at least seven (7) days prior to the hearing.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016, and executed by FHWA and FDOT.

A copy of the agenda may be obtained by contacting: FDOT Project Manager, Ashley Henzel, P.E., at 1(813)975-6433, or by email at ashley.henzel@dot.state.fl.us.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Alex Henry, Public Involvement Coordinator, at 1(813)975-6405 or by email at alex.henry@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

If any person decides to appeal any decision made by the Board with respect to any matter considered at this meeting or hearing, he/she will need to ensure that a verbatim record of the proceeding is made, which record includes the testimony and evidence from which the appeal is to be issued.

For more information, you may contact: FDOT Project Manager, Ashley Henzel, P.E., at 1(813)975-6433, or by email at ashley.henzel@dot.state.fl.us. You may also visit the project website at http://active.fdotd7studies.com/i275/54th-to-4th/.

I-275 (SR 93) DESIGN CHANGE RE-EVALUATION PUBLIC HEARING ANNOUNCED

FOR IMMEDIATE RELEASE

Media Contact:

Kris Carson FDOT District Seven Public Information Officer 11201 N. McKinley Drive Tampa, Florida 33612-6454 813.975.6202 **Project Contact:**

Ashley Henzel, P.E. FDOT District Seven Project Manager 11201 N. McKinley Drive Tampa, Florida 33612-6454 813.975.6433

Reference: WPI Segment No: 424501-1, ETDM 12556

I-275 (SR 93) Design Change Re-evaluation of the Project Development and Environment (PD&E) Study from south of 54 Avenue S to north of 4th Street N

Pinellas County, Florida

The Florida Department of Transportation (FDOT), District Seven will hold a public hearing for the I-275 (SR 93) Design Change Re-evaluation of the Project Development and Environment (PD&E) Study of I-275 (SR 93) from south of 54th Avenue South to north of 4th Street North in Pinellas County, Florida. This public hearing is being held to allow interested persons the opportunity to provide comments concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements. The 16.3-mile study evaluates the need for operational improvements and congestion management for the corridor.

The public hearing will be:

Date: Tuesday, September 24, 2019 Time: 5:30 p.m. - 7:30 p.m. Open House

6:30 p.m. Formal Presentation

Location: First Baptist Church of St. Petersburg, Heritage Hall

1900 Gandy Boulevard N. St. Petersburg, FL 33702

Department representatives will be available at the public hearing beginning at 5:30 p.m. to answer questions and discuss the project informally. Draft project documents and other project related materials will be displayed and a PowerPoint presentation will run continuously during the open house. At 6:30 p.m., FDOT representatives will begin the formal portion of the hearing, which will provide an opportunity for attendees to make formal oral public comments. Following the formal portion of the hearing, the informal open house will resume and continue until 7:30 p.m. A court reporter will be available to receive comments in a one-on-one setting. Written comments can be submitted at the hearing, mailed to the FDOT (address below), or emailed to ashley.henzel@dot.state.fl.us. All comments must be postmarked or submitted by Friday, October 4, 2019 to be part of the official public meeting record.

Draft project documents will be available for public review from September 4, 2019 to October 4, 2019, at the following locations and on the project website, http://active.fdotd7studies.com/i275/54th-to-4th/.

FDOT - District 7

A successful project depends on the public's participation during the study process. To provide comments, make suggestions, or ask questions about the project, contact:

Ashley Henzel, P.E.

Phone: 813.975.64<u>33 or</u> 800.266.7220

Kristen Carson (Media Contact)

Public Information Officer

Written comments may be submitted in place of or in addition to oral comments. Comments may be provided at the hearing or by mail to the address preprinted on the attached comment form. You may also submit comments on the project website http:// active.fdotd7studies.com/ i275/54th-to-4th/. All written comments must be submitted or postmarked no later than Friday, October 4, 2019, to be part of the official public hearing record.

(I) Public Hearing Notice: I-275 (SR 93) Design Change Re-Evaluation **Dear Property Owner and/or Interested Citizen:**

You are invited to attend and participate in the Florida Department of Transportation (FDOT) District Seven public hearing for a Design Change Re-evaluation of the Project Development and Environment (PD&E) Study of I-275 (SR 93) from south of 54th Avenue South to north of 4th **Street North.** This project involves operational improvements, congestion management, lane continuity, and express lane improvements along the project corridor in Pinellas County. This hearing allows those interested the opportunity to provide comments and express views concerning the location, conceptual design, and social, economic, cultural and environmental effects of the proposed project.

This letter serves as notice to property owners (pursuant to F.S. 339,155) that all or a portion of their property is within 300 feet of the edge of right-of-way of the proposed project. However, this does not mean that all properties will be directly affected.

Beginning at 5:30 p.m., FDOT representatives will be available to answer questions and discuss the project. Exhibits and other project-related materials showing the proposed improvements will be available. A PowerPoint presentation will run continuously during the open house. At 6:30 p.m., FDOT representatives will hold the formal portion of the hearing, which will be an opportunity to make formal oral public comments. Following the formal portion of the hearing, the informal open house will resume and continue until 7:30 p.m. You can attend anytime during the two-hour meeting to review project information and talk with project team members.

A court reporter will be available to receive comments in a one-onone setting before and after the formal portion of the hearing. You may mail your written comments to the address pre-printed on the back of the comment form provided at the hearing or enter them on the project website: http://active.fdotd7studies.com/i275/54th-to-4th. All comments must be postmarked or emailed by Friday, October 4, 2019 to become part of the official public hearing record.

Draft study documents and other pertinent information depicting the project's recommendation will be available on the project website for review from Wednesday, September 4, 2019, to Friday, October 4, **2019**, and at the following locations:

BARBARA S. PONCE PUBLIC LIBRARY

7770 52nd Street North Pinellas Park, FL 33781 727.541.0718

Library Hours:

Mon-Thurs 9:00 a.m. - 8:30 p.m. Fri-Sat 9:00 a.m. - 5:00 p.m. **Sun** 1:00 p.m. - 5:00 p.m.

FDOT DISTRICT SEVEN

11201 N. McKinley Drive Tampa, FL 33612 813.975.6000

Business Hours:

Mon-Fri 8:00 a.m. - 5:00 p.m. Sat-Sun Closed

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been carried out by FDOT pursuant to Title 23 of the United States Code, Section 327 and a Memorandum of Understanding dated December 14, 2016 and executed by Federal Highway Administration and FDOT. If you have questions about the project or the scheduled hearing, please contact Ashley Henzel, P.E., at 813.975.6433 or visit the project website at http://active.fdotd7studies.com/i275/54th-to-4th/.

Sincerely

Kirk Bogen, P.E.

Environmental Management Engineer

n 275

Study Purpose

A PD&E Study is a comprehensive evaluation of social, cultural, economic, and environmental effects associated with a proposed transportation improvement. FDOT District Seven conducted a PD&E Study and subsequent re-evaluation studies for I-275 (SR 93) from south of 54th Avenue South to north of 4th Street North in Pinellas County, Florida to analyze the need for operational improvements, and evaluate the location, conceptual design, and social, economic, and environmental effects of proposed improvements. The I-275 corridor improvements considered for the PD&E Study and subsequent re-evaluation studies are needed to help improve existing traffic congestion, enhance safety, and better accommodate future travel demands associated with projected growth in employment and population. The studies satisfy all applicable requirements, including the National Environmental Policy Act (NEPA), for this project to qualify for federal-aid funding of subsequent development phases (i.e., right-of-way acquisition, design, and construction).

Existing Conditions

I-275 is a vital link in the local and regional transportation network and serves as a critical evacuation route. As a major north-south corridor through Pinellas County, I-275 connects the Tampa Bay Region with the remainder of the state and the nation supporting commerce, trade, and tourism. Preserving the operational integrity and regional functionality of I-275 is critical to the mobility and economy of the Tampa Bay Region. Within the study limits, I-275 is a divided highway with two general use lanes with one auxiliary lane in each direction from south of 54th Avenue South to I-375. From I-375 north to north of 4th Street North, I-275 has three general use lanes and one auxiliary lane in each direction. Due to a series of existing left-hand entrance and exit ramps, there are no continuous travel lanes on southbound I-275 and only one continuous lane on northbound I-275.

PD&E Study & 2017 Design Change Re-evaluation

The original PD&E Study evaluated operational improvements to provide two continuous lanes in each direction on I-275 in Segments A and B, and provide express lanes in each direction in Segment C. Following a Public Hearing held on September 29, 2015, Federal Highway Administration (FHWA) approved the Type II Categorical Exclusion (Type II CE) on July 15, 2016 for these improvements.

Subsequent to FHWA approval of the Type II CE, a Design Change Re-evaluation was undertaken in 2017 to evaluate re-purposing the approved express lane configuration within Segment C from south of Dr. Martin Luther King, Jr. Street North to 1.0 mile south of the Howard Frankland Bridge. The re-purposing of one of the two approved express lanes was needed to accommodate three general use lanes, one auxiliary lane, and one express lane in each direction. This re-evaluation was approved by FDOT Office of Environmental Management (OEM) on April 26, 2017. The acceptance of the Type II CE and the 2017 Re-evaluation constituted approval for the Design-Build construction that is currently underway as part of the Gateway Expressway and I-275 Design Build Project (433880-1-52-01 and 424501-2-52-01) within Segment C from south of Gandy Boulevard to north of 4th Street North.

Current Design Change Re-evaluation

The current Design Change Re-evaluation (WPI No. 424501-1) is evaluating the impacts of further changes to the approved PD&E. The current re-evaluation is evaluating the addition of a second express lane in Segment C and the addition

of two express lanes on I-275 in Segment B from north of I-375 to south of Gandy Boulevard. These proposed improvements would tie-in with planned improvements to the Howard Frankland Bridge.

The current re-evaluation also analyzes replacing the I-275 ramp bridges on 4th Street North over Big Island Gap, providing trail connections from the Howard Frankland Bridge to 4th Street North and Ulmerton Road, and ramp connection modifications at the Gandy Boulevard and Gateway Expressway interchange areas. To meet drainage and stormwater requirements, pond sites will be needed to accommodate new impervious surface due to widening to accommodate express lanes. Several of these new pond site locations will be outside of the existing right of way.

Typical Sections

To best describe the types of improvements proposed, the study corridor is divided into three segments. The current re-evaluation is considering typical section design changes for Segments B and C. No changes are proposed for Segment A (south of 54th Avenue South to I-375).

Figure 2 shows the Previously Approved Alternative and the Current Preferred Build Alternative typical sections for Segment B (I-375 to Gandy Boulevard). **Figure 3** shows the Previously Approved Alternative and the Current Preferred Alternative typical sections for Segment C (Gandy Boulevard to north of 4th Street North).

Updated Evaluation Matrix

The environmental and sociocultural impacts of the Current Preferred Build Alternative were compared to the impacts from the Previously Approved Alternative in an evaluation matrix shown in **Table 1**. Estimated project costs are also shown.

Table 1: Evaluation Matrix & Estimated Project Costs

EVALUATION CRITERIA	Previously Approved Alternative	Current Preferred Build Alternative	
Potential Right-of-Way (R/W) Impacts			
No. of Affected Parcels	15	28	
No. of Potential Residential/Business Relocations	0/0	16/0	
Additional R/W Needed for Roadway (acres)	0 0.73		
Additional R/W Needed for Ponds (acres)	4.5	19.9	
Potential Environmental Impacts			
Archaeological / Historic Sites	16	17	
Noise-Sensitive Sites	1,054	1,415	
Wetlands (acres)	0.74	2.93	
Seagrasses (acres)	0.74	1.424	
Threatened and Endangered Species	Low	Low	
Contamination and Hazardous Material Sites	13	13	

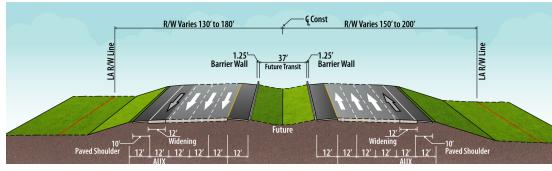

Estimated Project Costs (\$millions)	Current Preferred Build Alternative
R/W Needed	\$12.54
Preliminary Engineering Design	\$23.22
Construction	\$331.71
Construction Engineering Inspection	\$23.22
Preliminary Estimate of Total Cost	\$390.70

T Right-of-Way Acquisition Procedure

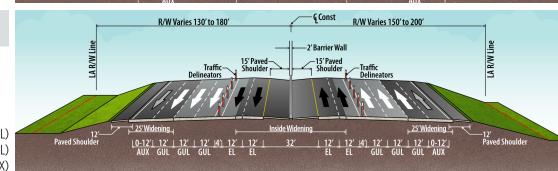

When a transportation project proposes acquiring private property, you may have questions and concerns. To better inform you about the right-of-way acquisition process and your rights, FDOT created real estate acquisition and relocation informational brochures. These brochures and other education materials will be available during the public hearing. Copies of the brochures are available on our website: https://www.fdot.gov/rightofway/documents.shtm. We would like to hear your concerns and answer your questions. We also encourage you to speak with the FDOT Project Manager or a Right-of-Way Representative at your convenience.

Figure 2. Segment B - I-175 to Gandy Boulevard Typical Sections

Previously Approved Alternative Typical Section

Current Preferred Build Alternative Typical Section

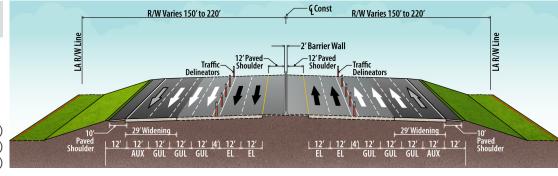

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

Figure 3. Segment C - Gandy Boulevard to north of 4th Street North Typical Sections

Previously Approved Alternative Typical Section

Current Preferred Build Alternative Typical Section

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

⋄ Funding

Table 2 outlines the timing and funding for the improvements associated with the current Design Change Re-evaluation. Once funding is available, these projects will proceed as Design-Build projects (WPI No. 424501-5).

Table 2: FDOT Tentative 5-Year Work Program

	FDOT Fiscal Years 2020-2024							
Project Phase	Segment A (Lane Continuity)	Segment B (Lane Continuity & 2 Express Lanes)	Segment C (1 additional Express Lane)					
Design Change Re-evaluation	Underway	Underway	Underway					
Right-of-Way Acquisition	FY 2022 (1)	FY 2022 (1)	Not currently funded					
Design/Build	FY 2024 (2)	FY 2024 (2)	Not currently funded					

(1) Right-of-way acquisition related to stormwater management facilities and floodplain compensation required for Segment A and Segment B. (2) Partially funded.

ELECTED OFFICIAL EMAIL NOTICE

EMAIL SUBJECT: Public Hearing Notification for I-275 (SR 93) Design Change Re-evaluation of Project Development and Environment (PD&E) Study for I-275 (SR 93) from south of 54th Avenue South to north of 4th Street North, Pinellas County, WPI Segment Number: 424501-1

Dear Elected Officials and Staff:

The Florida Department of Transportation (FDOT) District Seven will hold a public hearing for the above referenced project on September 24, 2019 at the First Baptist Church of St. Petersburg, Heritage Hall, 1900 Gandy Boulevard N, St Petersburg, FL 33702. The hearing will be held as an open house from 5:30 p.m. to 7:30 p.m. with a formal presentation at 6:30 p.m. A copy of the newsletter, including a location map for the hearing is attached for your reference. This newsletter is being sent to all property owners and tenants located within at least 300 feet on either side of the proposed alignment and to other public officials, regulatory agencies, organizations, and individuals interested in the project. The hearing is being conducted to give interested persons an opportunity to express their views concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements. The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016, and executed by FHWA and FDOT.

This hearing is being held as part of the Design Change Re-evaluation of the Project Development and Environment (PD&E) Study that is being conducted to evaluate proposed transportation solutions for this segment of I-275 (SR 93) and to provide documented information necessary for FDOT to reach a decision on the type, design, and location of the improvements. The project is being developed to increase capacity, improve safety, and make operational improvements to I-275 in Pinellas County while minimizing potential impacts to the natural and human environments.

If you have any questions about the project or the scheduled public hearing, please contact the Project Manager, Ashley Henzel, P.E., at 813.975.6433, or by email at ashley.henzel@dot.state.fl.us. You may also visit the project website at http://active.fdotd7studies.com/i275/54th-to-4th/.

Sincerely,

Bob Esposito

Florida Statute 163.3181(2)	Public Participation in the Comprehensive Planning Process; Intent, Alternative Dispute Resolution

Public Participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Public hearing advertisement dates: Tampa Bay Times on September 3, 2019 and September 13, 2019 and Florida Administrative Register (FAR) on September 13, 2019.

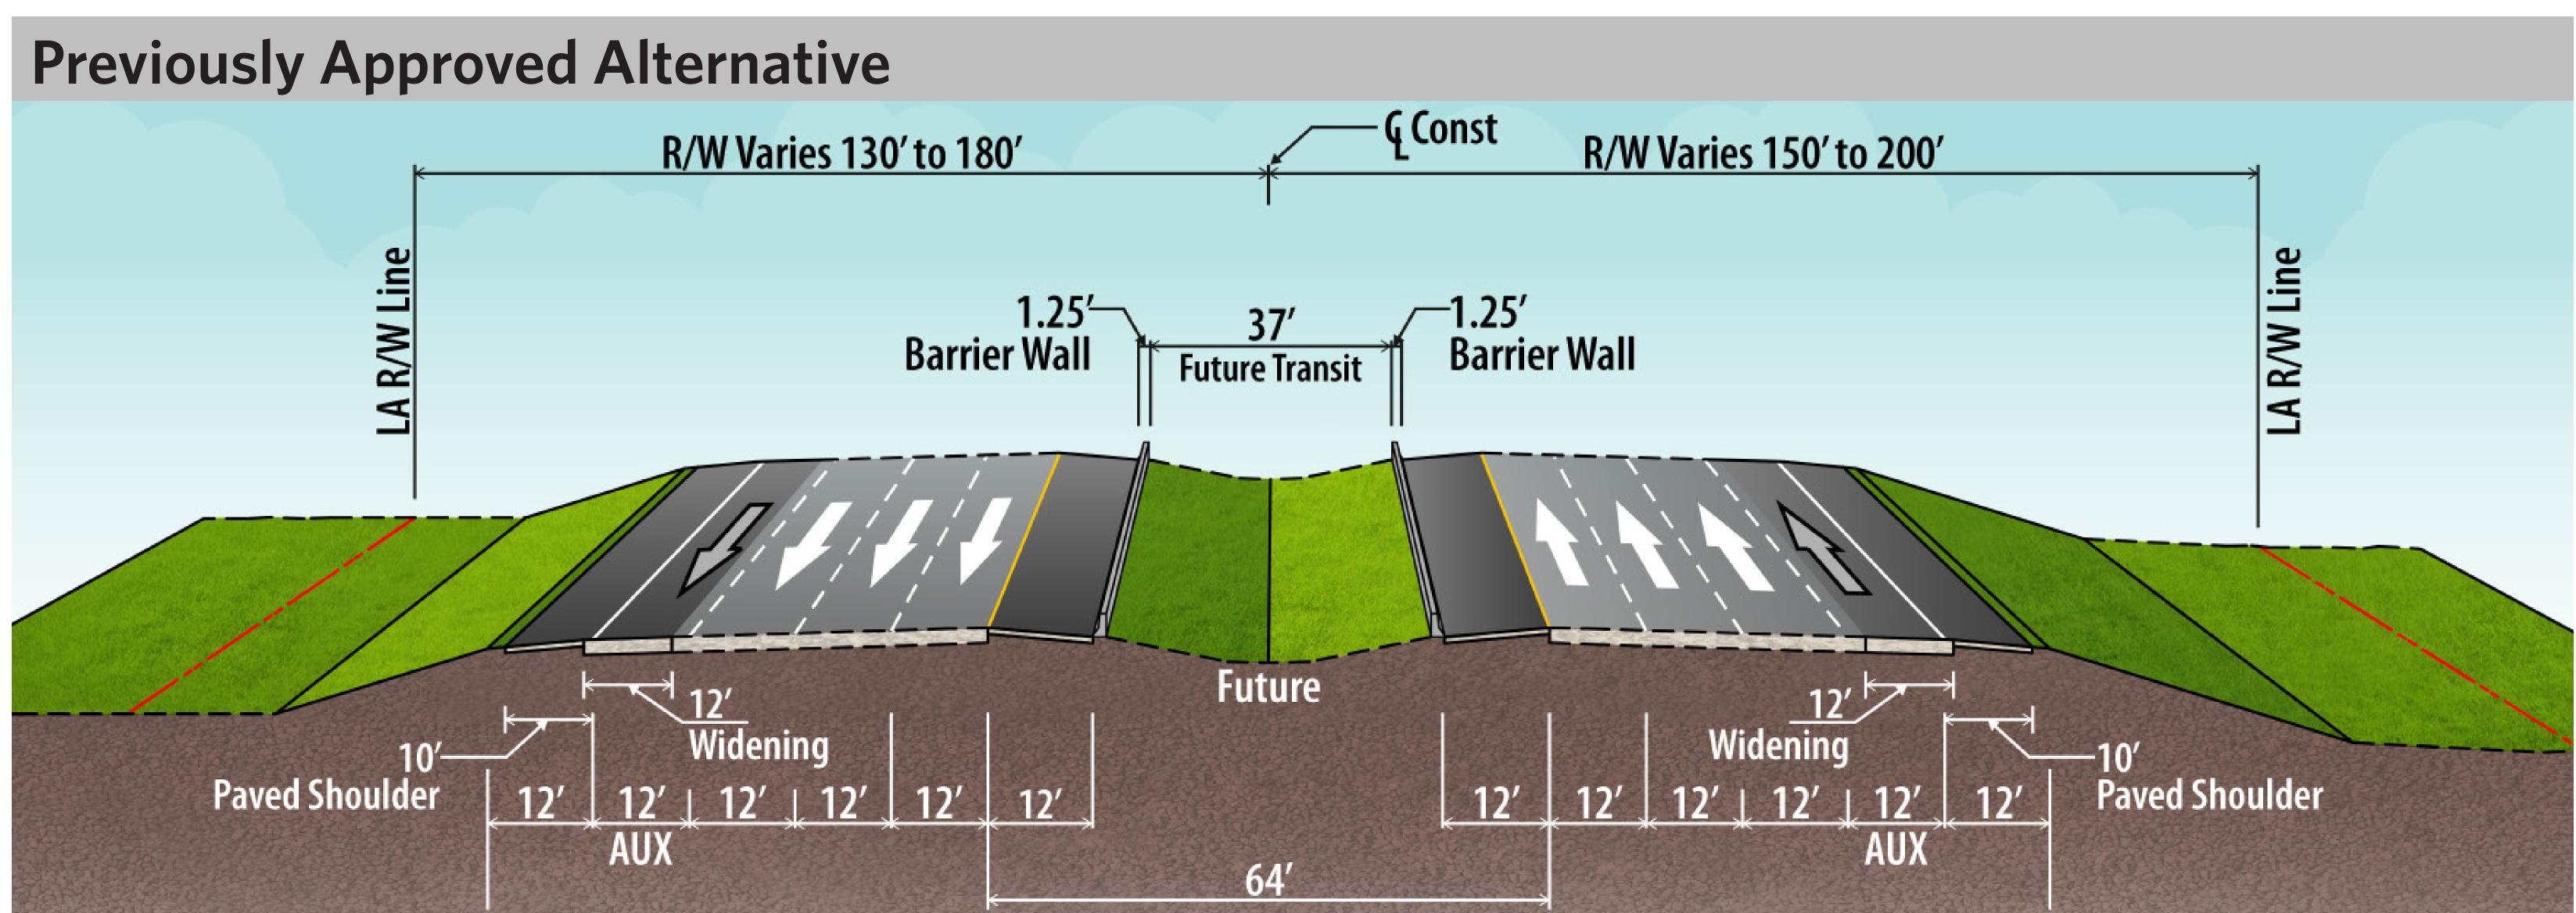

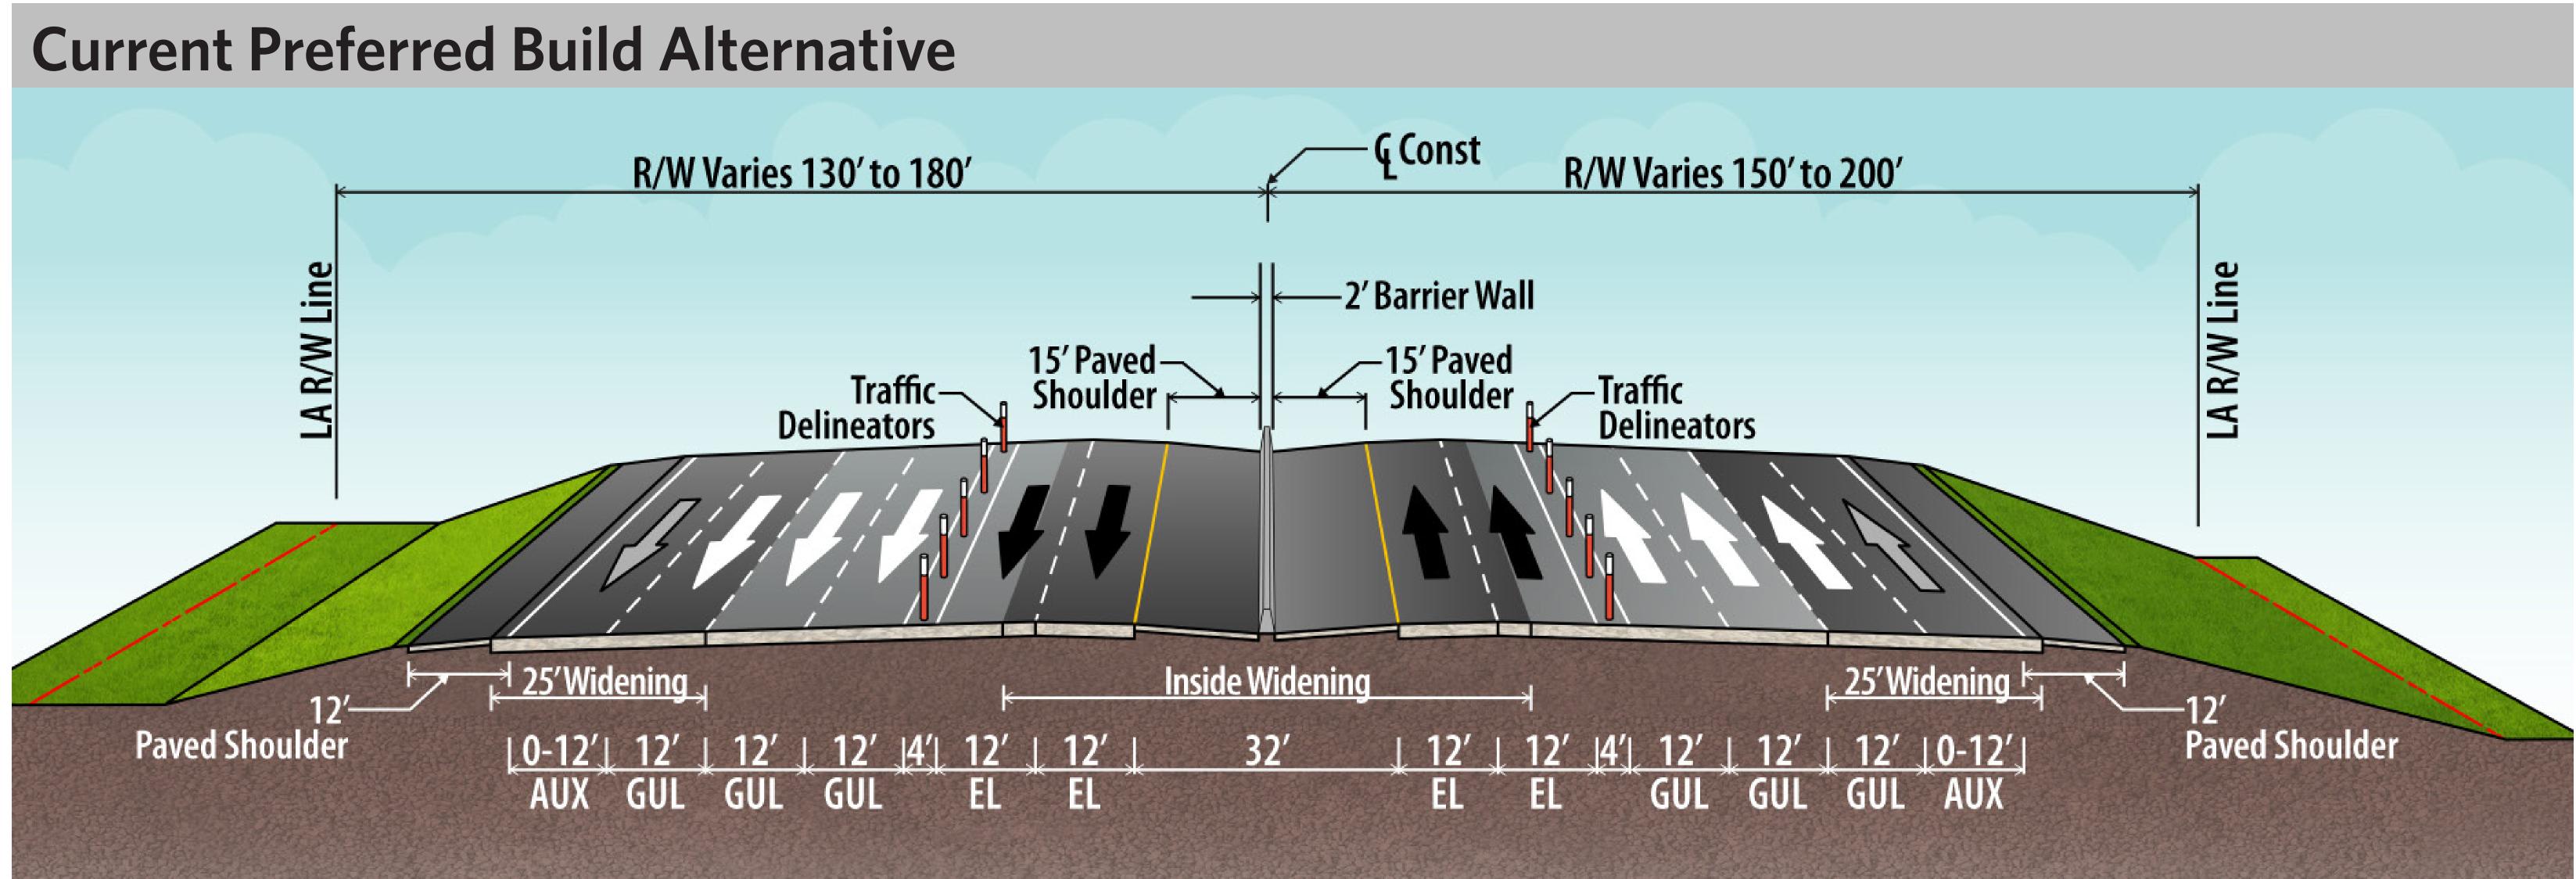

I-275 (SR 93) Design Change Re-evaluation Project Development and Environment Study from south of 54th Avenue South to north of 4th Street North, Pinellas County, Florida

WPI Segment # 424501-1, ETDM # 12556

SEGMENT B - I-175 TO GANDY BOULEVARD TYPICAL SECTIONS

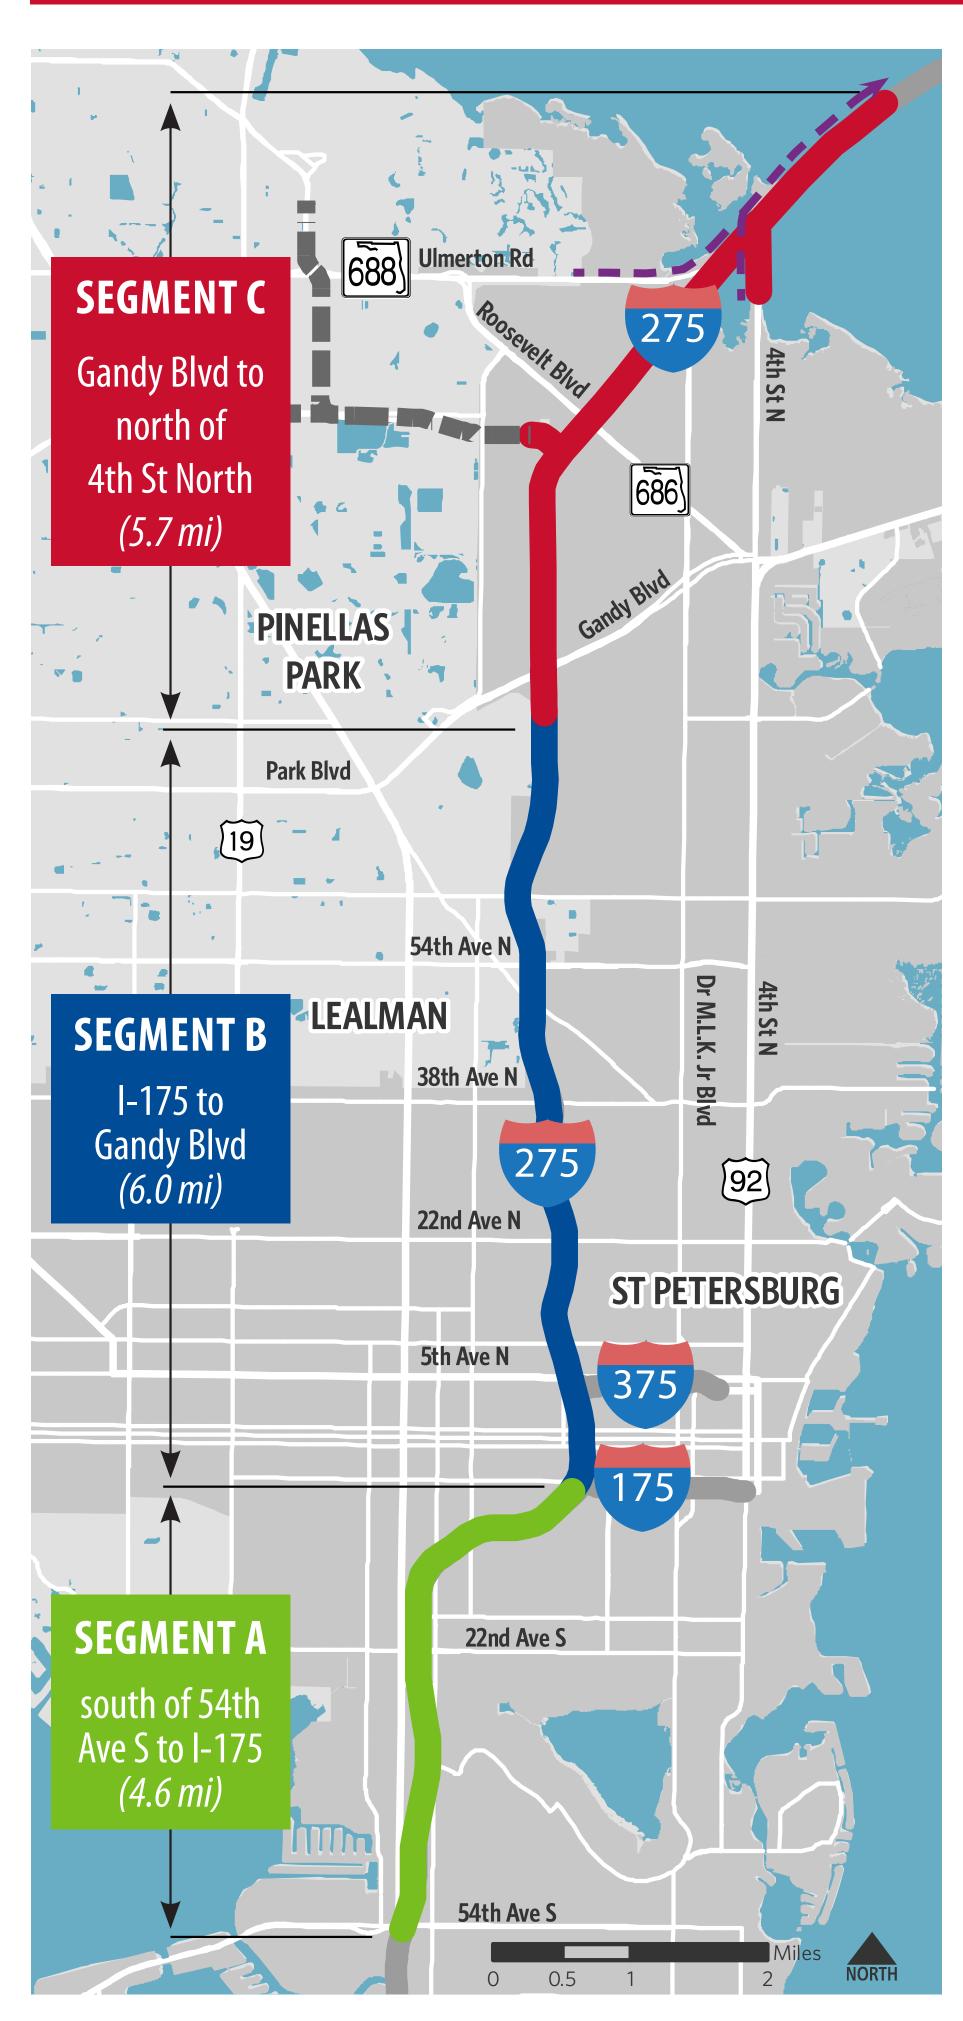

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

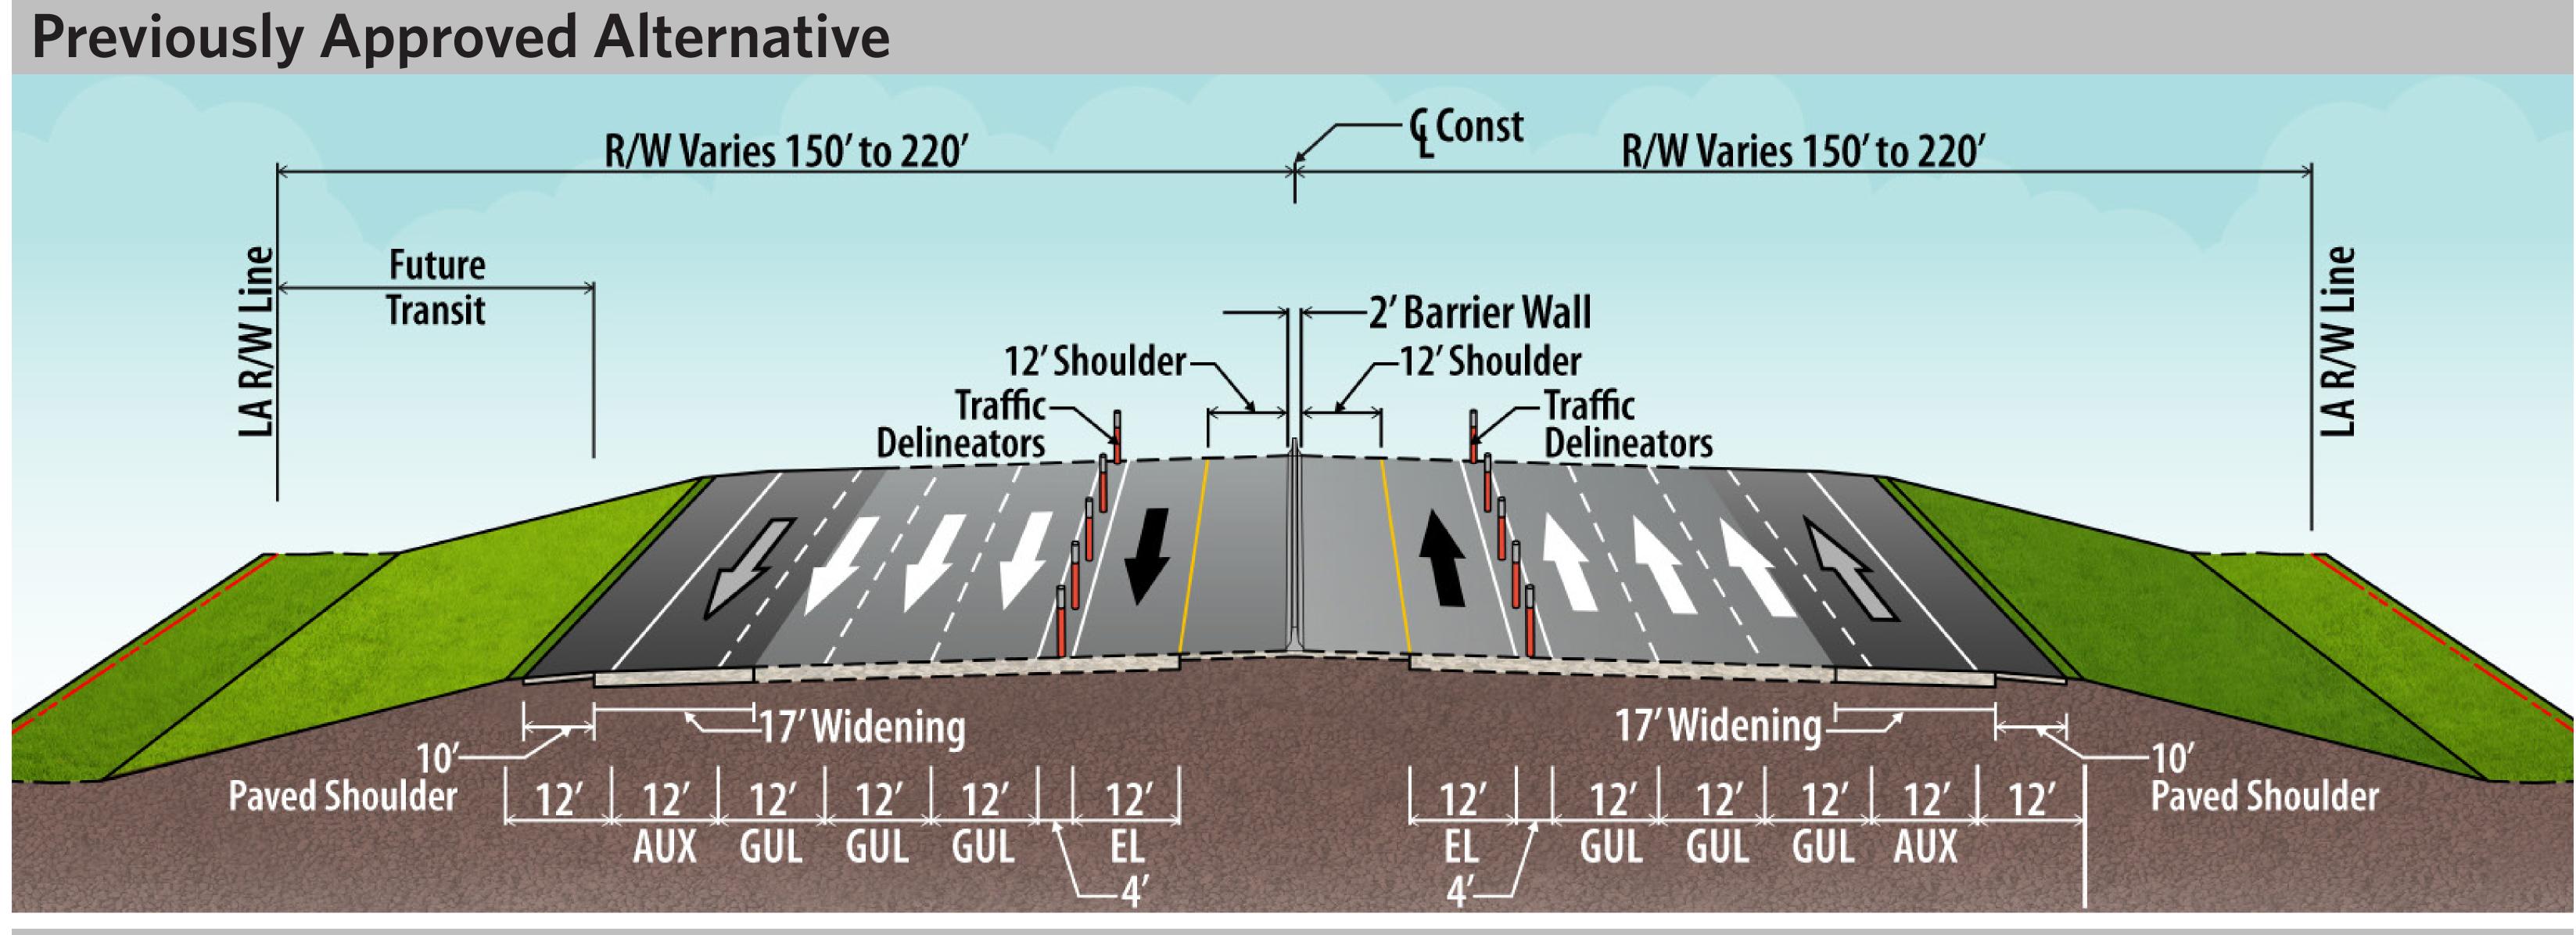

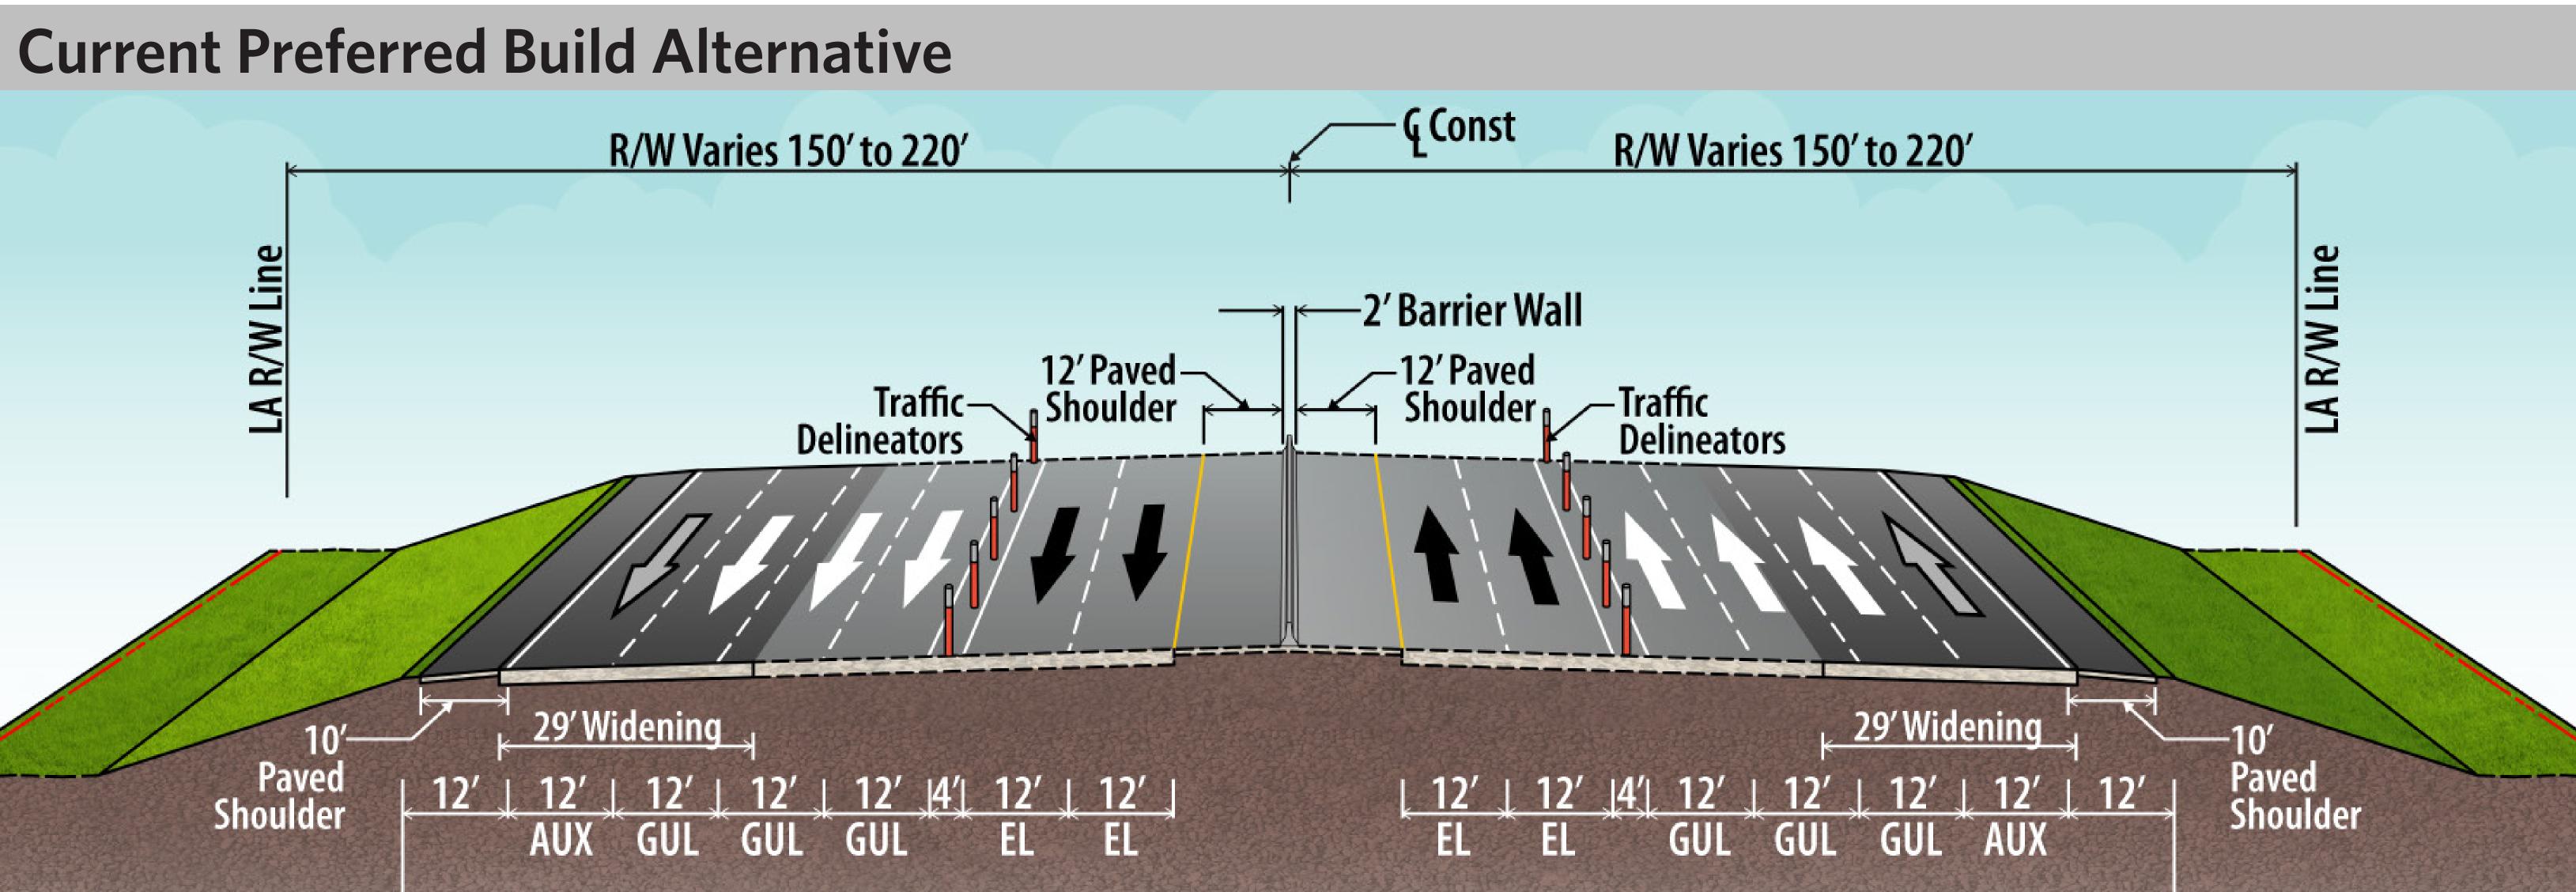

I-275 (SR 93) Design Change Re-evaluation Project Development and Environment Study from south of 54th Avenue South to north of 4th Street North, Pinellas County, Florida

WPI Segment # 424501-1, ETDM # 12556

SEGMENT C - GANDY BOULEVARD TO NORTH OF 4TH ST NORTH TYPICAL SECTIONS

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

I-275 (SR 93) Environmental Look Around

What is an Environmental Look Around (ELA)?

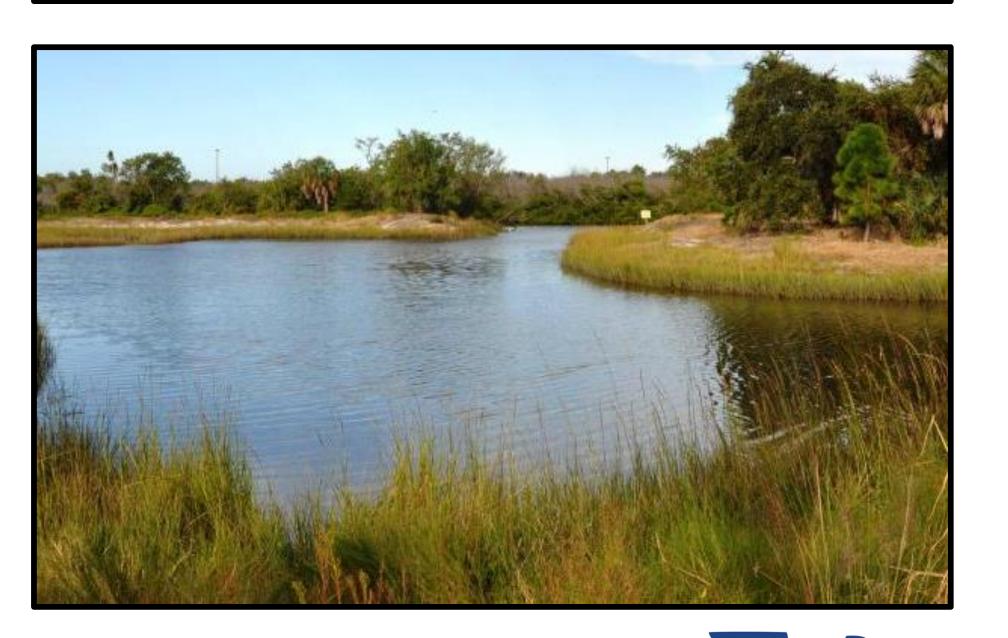

A process that explores alternative approaches to stormwater management requirements

Why is FDOT completing an ELA in addition to the re-evaluation?

- To identify opportunities to reduce the number and size of new pond sites required by:
 - Utilizing existing water quality treatment credits
 - Adding capacity to existing ponds near the project
 - Partnering with local governments and agencies such as Pinellas County, the City of St. Petersburg and the Southwest Florida Water Management District (SWFWMD) on joint-use regional projects
 - Identifying stormwater harvesting (reuse) projects for golf courses, parks or water treatment plants to aid in water conservation

I-275 (SR 93) Environmental Look Around

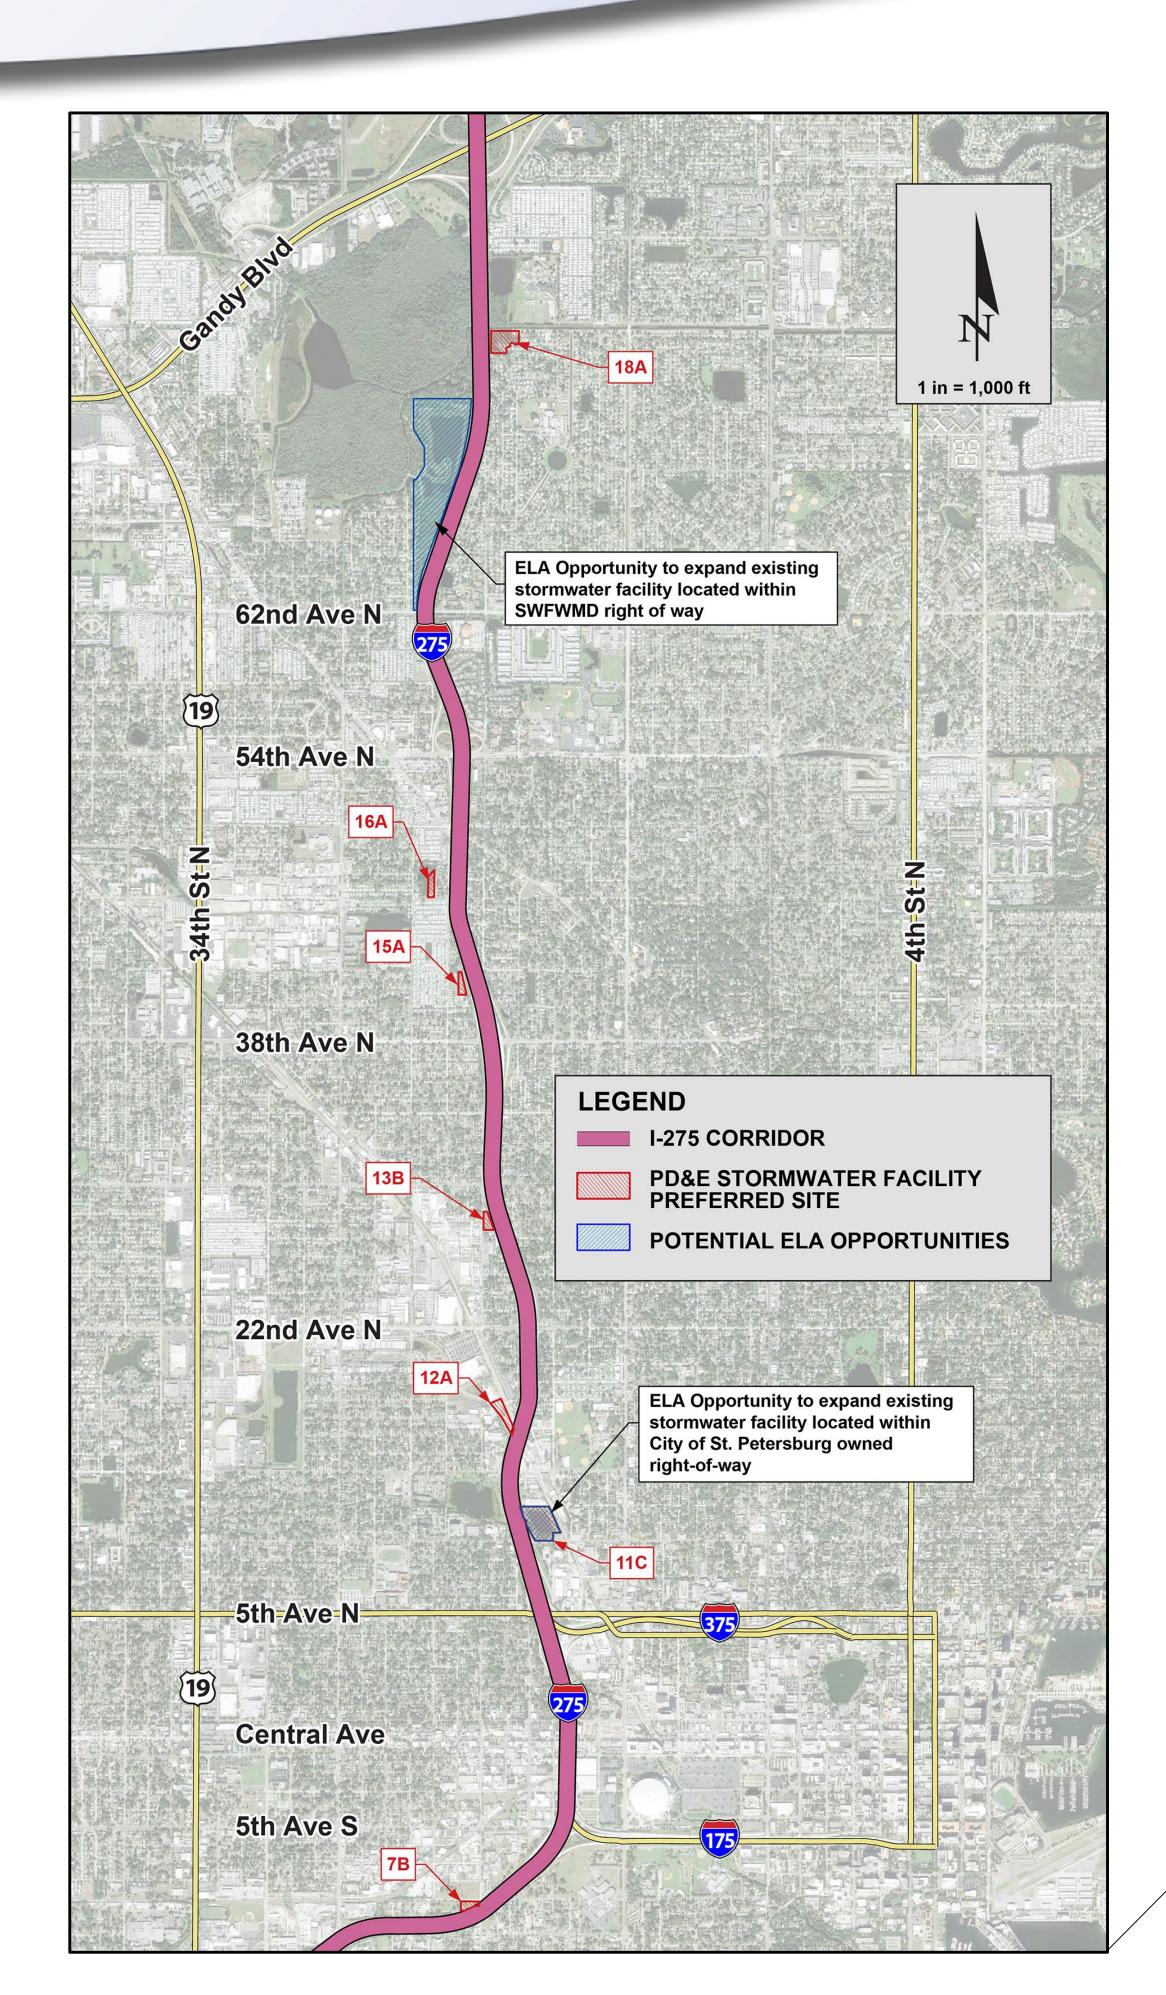

FDOT is conducting an Environmental Look Around (ELA) to identify opportunities to reduce or eliminate right of way required for pond sites identified in the PD&E study

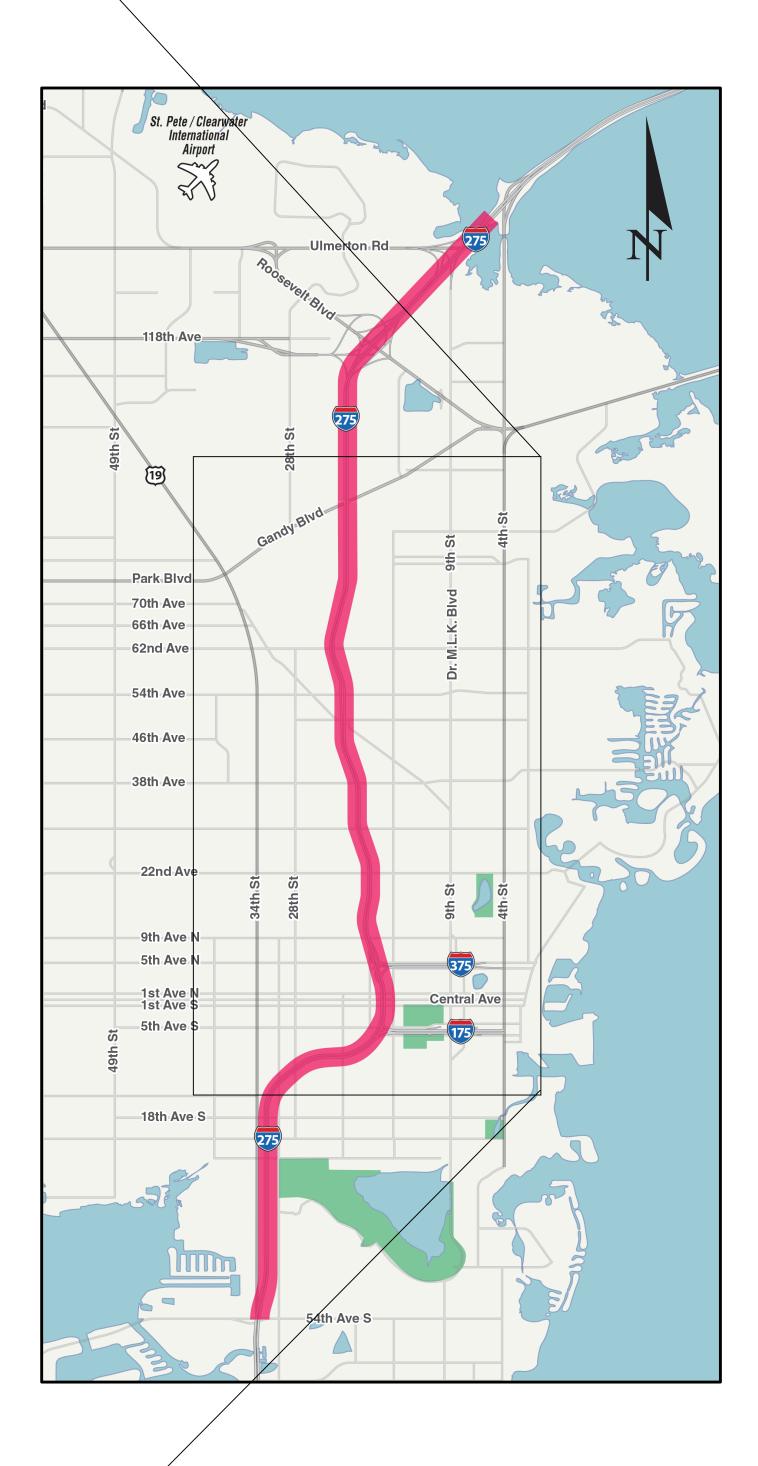

The ELA opportunities identified include:

- Expanding an existing pond located within City of St. Petersburg owned rightof-way
- Expanding an existing pond located within Southwest Florida Water Management District (SWFWMD) owned right-of-way
- The potential to eliminate or reduce the size of 6 ponds identified in the PD&E study located outside of FDOT-owned right-of-way

ELA opportunities will be further evaluated through coordination with agency partners to determine the feasibility.

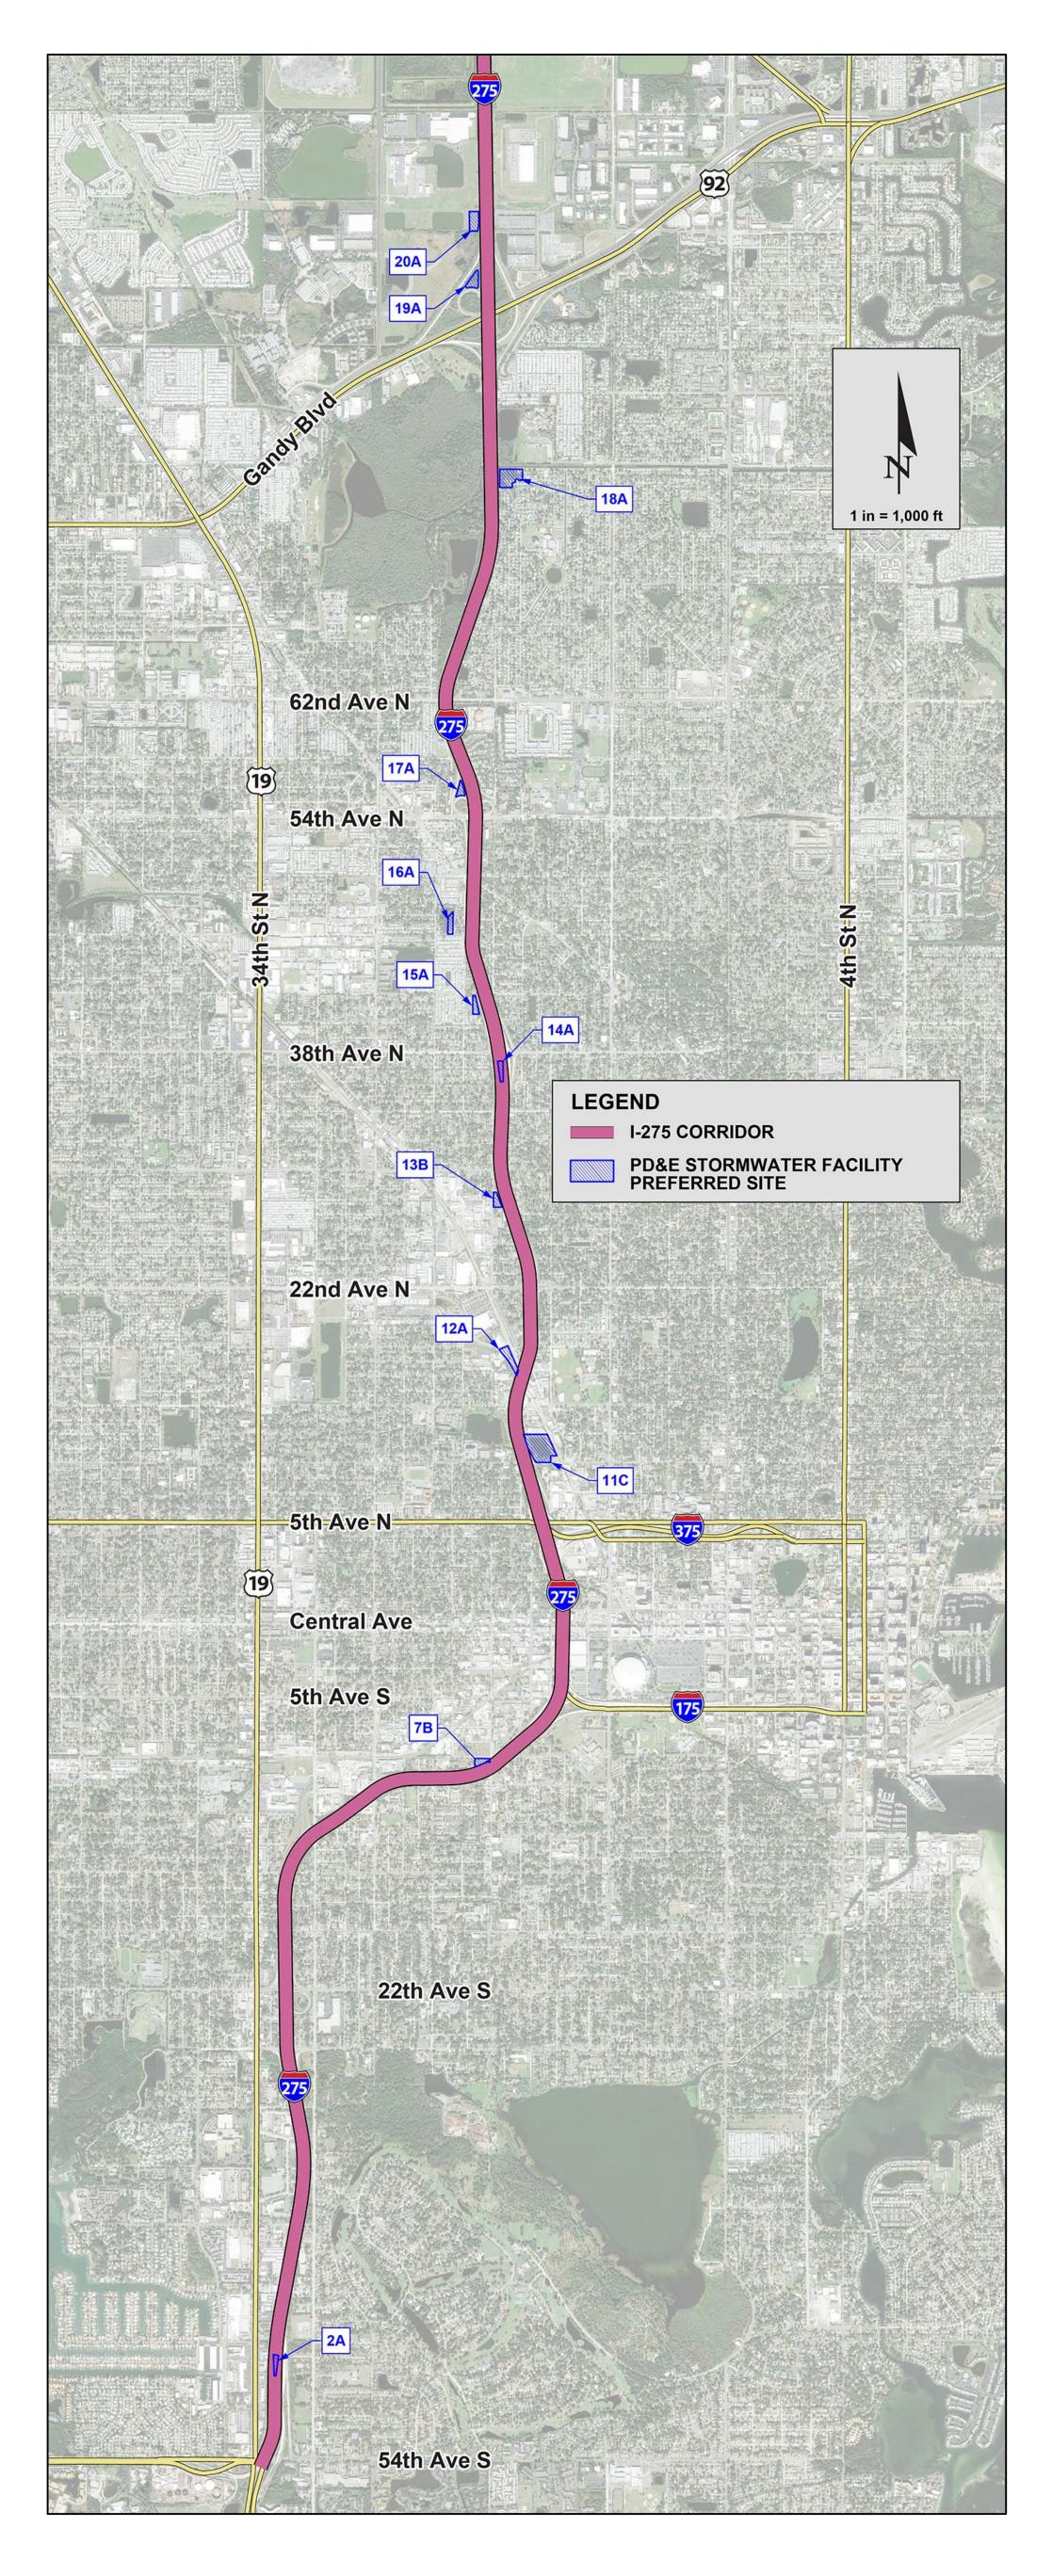

275 I-275 (SR 93) Design Change Re-evaluation

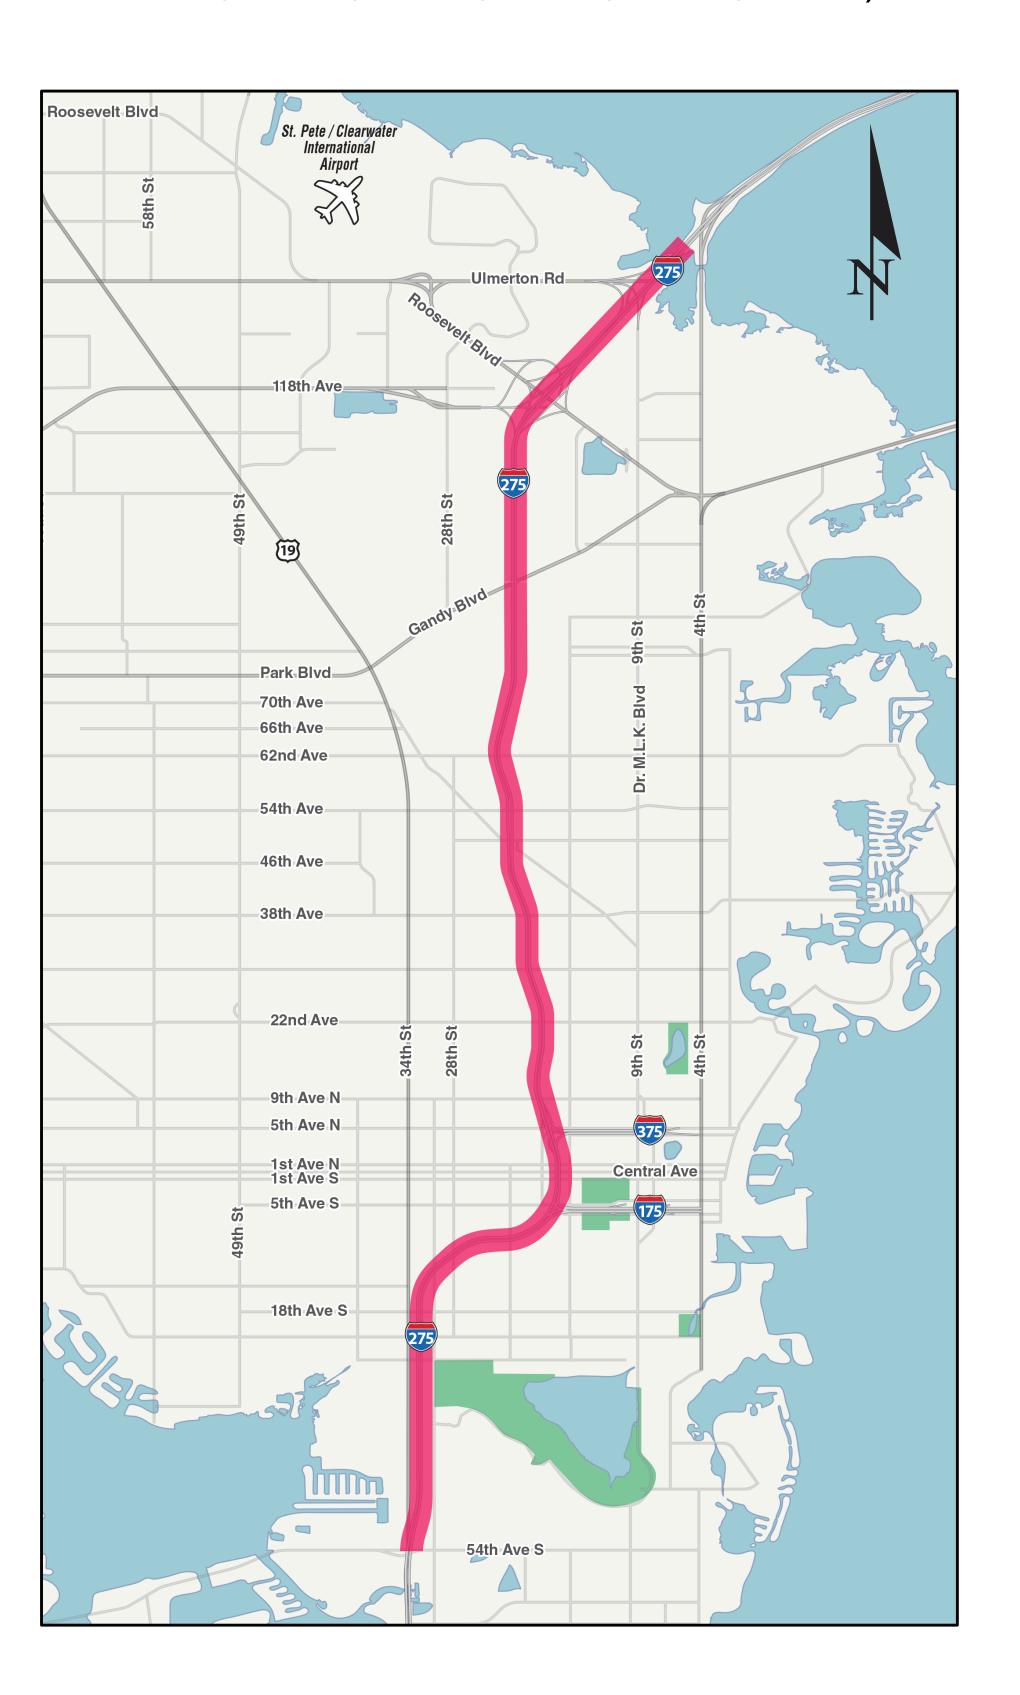

Project Development and Environment Study from south of 54th Avenue South to north of 4th Street North, Pinellas County, Florida WPI Segment # 424501-1, ETDM # 12556

I-275 PD&E Pond Sites

The Project Development & Environment (PD&E) study for I-275 from south of 54th Avenue S to north of 4th Street N identified the need for 12 pond sites:

- 4 sites located within FDOT-owned right-of-way (pond sites 2A, 14A, 17A, 19A)
- 8 sites located outside of FDOT-owned right-of-way (pond sites 7B, 11C, 12A, 13B, 15A, 16A, 17A, 18A, 20A)

Project Limits

16.3-mile-long Corridor:

- Segment A is from south of 54th
 Avenue South to I-175 (4.6 miles)
- Segment B is from I-175 to south of Gandy Boulevard (6.0 miles)
- Segment C is from south of Gandy Boulevard to north of 4th Street North (5.7 miles)

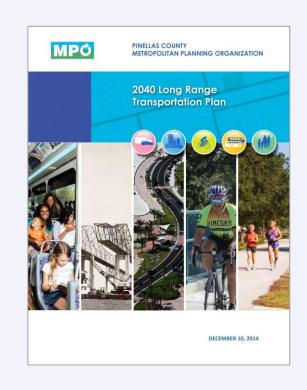

Purpose & Need

This Project is intended to:

- Improve existing operational deficiencies on I-275
- Develop a solution to address present and future traffic congestion
- Maintain mobility for freight and goods movement along a regionally significant transportation corridor
- Enhance safety
- Better accommodate future travel demands associated with projected growth and employment

PD&E Study & Re-evaluation Timeline

Study/ Reevaluation	Status	Segment A	Segment B	Segment C
Original PD&E Study	Approved by FHWA on July 15, 2016	Lane Continuity Improvements	Lane Continuity Improvements	2 Express Lanes
2017 Design Change Re-evaluation	Approved by FDOT OEM on April 26, 2017	No Change	No Change	1 Express Lane in Each Direction
Current Design Change Re-evaluation (1)	Underway	No Change	2 Express Lanes in Each Direction (I-375 to Gandy)	1 Additional Express Lane in Each Direction

(1) The Current Re-evaluation is also considering new ramp bridges on 4th Street North, trail connections from Howard Frankland Bridge, and ramp connection modifications to Gateway Expressway and Gandy Boulevard.

I-275 (SR 93) Design Change Re-evaluation

Original PD&E Study (approved July 2016)

Segment C

(Dr. MLK, Jr. Blvd to north of 4th St North)
2 Express Lanes in Each Direction

R/W Varies 150' to 220' Future Transit Traffic Delineators 12' Paved Shoulder Traffic Delineators 17' Widening 18' Paved Shoulder Shoulder Shoulder Shoulder Shoulder Shoulder Shoulder Shoulder

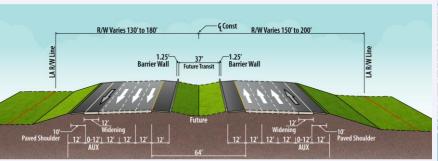

Segment B

(I-175 to Gandy Blvd)

Segment A

(south of 54th Ave South to I-175)

Lane Continuity Improvements

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

688 Ulmerton Rd

PARK

I-275 (SR 93) Design Change Re-evaluation

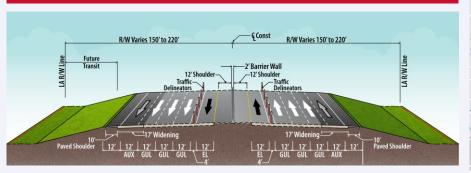

2017 Design Change Re-evaluation

(approved April 2017)

Segment C

- Repurpose 1
 express lane to
 accommodate:
 - 3 general use lanes
 - 1 auxiliary lane
 - 1 express lane

Segment C (Dr. MLK, Jr. Blvd to north of 4th St North)

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

Current Design Change Re-evaluation

- No changes to Segment A
- In Segment B, addition of 2 express lanes in each direction from I-375 to Gandy Blvd
- In Segment C, addition of second express lane in each direction from Gandy Blvd to north of 4th Street North
 - Changes to Gandy Blvd interchange ramps to southbound I-275
 - Changes to Gateway Expressway interchange ramps to/from I-275
 - New trail connections from the HFB to Ulmerton Rd and 4th St North
 - Replacement of 4th St North ramp bridges over Big Island Gap
- Impacts and location of ponds throughout the entire corridor

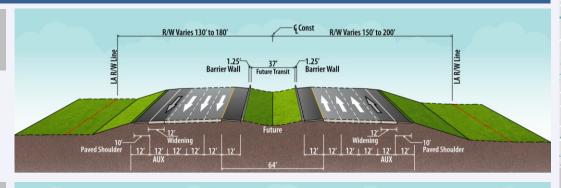

I-275 (SR 93) Design Change Re-evaluation

Segment B - I-375 to Gandy Blvd Typical Sections

Previously Approved Alternative

Current Preferred Build Alternative

General Use Lane (GUL) Auxiliary Lane (AUX)

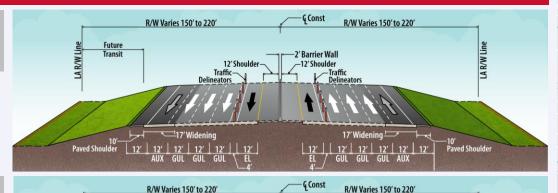

I-275 (SR 93) Design Change Re-evaluation

Segment C – Gandy Blvd to north of 4th St North Typical Sections

Previously Approved Alternative

Current Preferred Build Alternative

General Use Lane (GUL) Express Lane (EL) Auxiliary Lane (AUX)

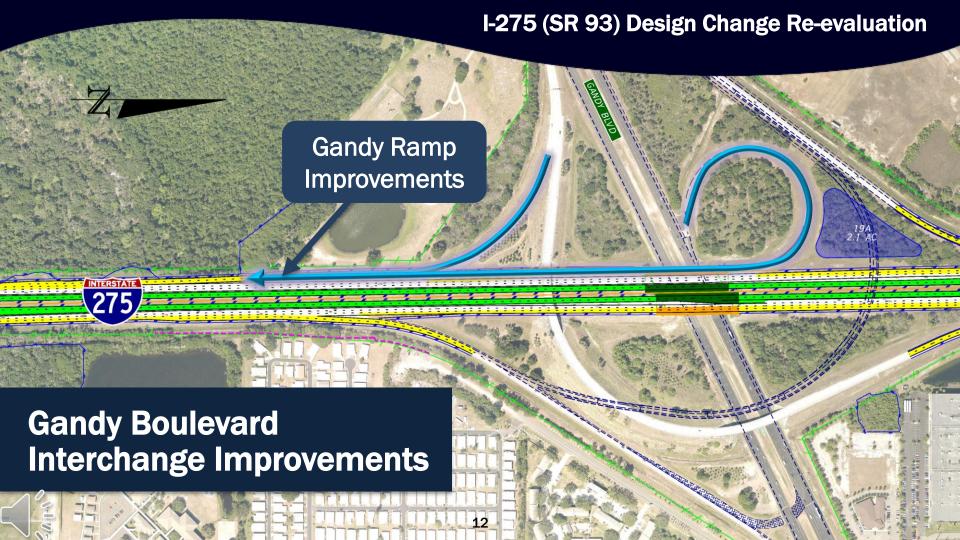

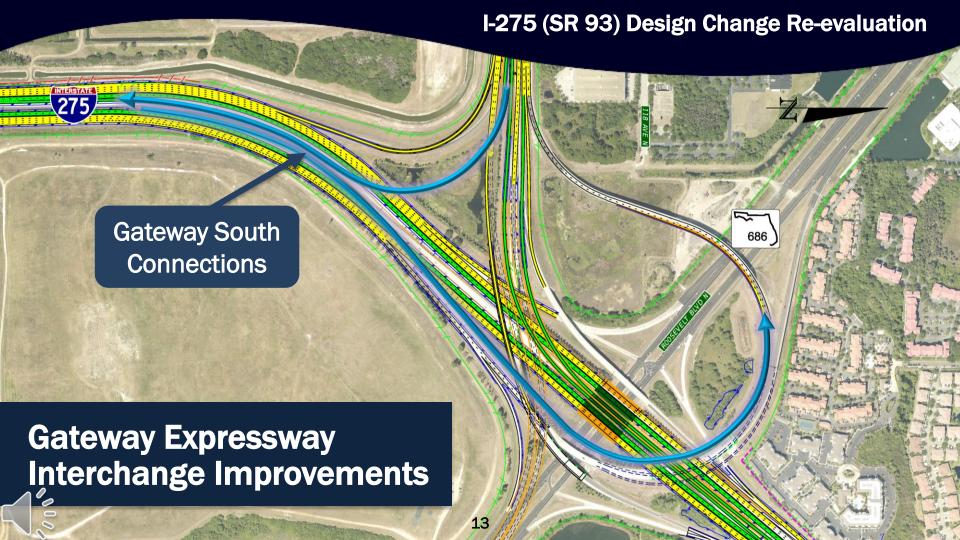

688

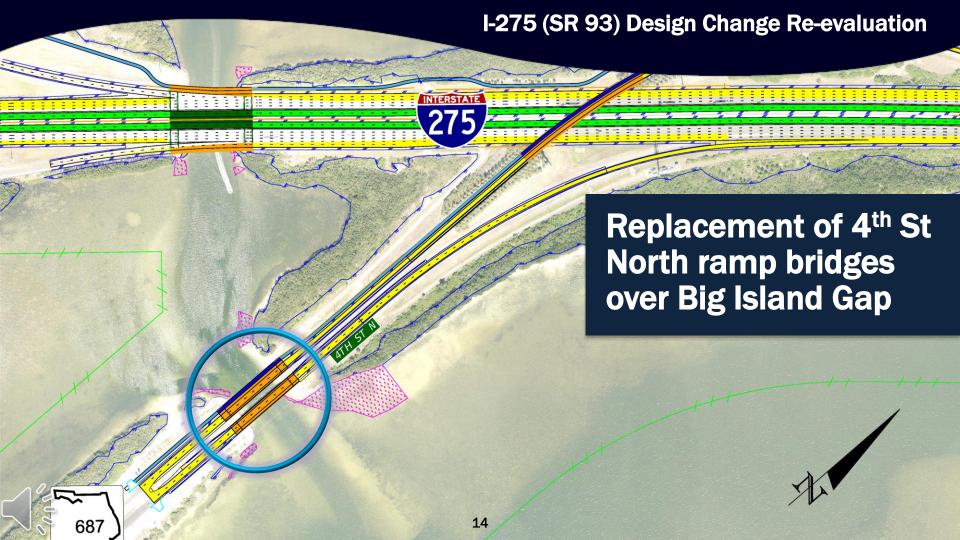

PARK

SLEALM AN

Drainage/Stormwater Management

- An evaluation of impacts and locations of pond sites along the entire corridor was conducted
 - Right-of-way may be needed
- Working with agency partners through a separate Environmental Look-Around process to review regional water quality improvements or joint use projects
 - Process could result in reduction in number of pond sites and/or pond site sizes

Environmental Effects

NATURAL RESOURCES

- Wetlands & Surface Waters
- Seagrasses
- Threatened and endangered species habitat

CULTURAL RESOURCES

Archaeological & Historic Resources

SOCIAL ENVIRONMENT

 Community Impacts (i.e., Residential Relocations)

PHYSICAL ENVIRONMENT

- Noise
- Contamination

- Improvements proposed as part of this Design Change Re-evaluation resulted in
 - 1.424 acres impacts to seagrasses
 - 5.17 acres impacts to wetlands

Cultural Resources:

Archaeological & Historic Resources

- Section 106 requires agencies to take into account the effects of their undertakings on historic properties (i.e., archaeological or historic sites).
- 17 historic resources in project area were identified as listed or eligible for listing on the National Register of Historic Places.
- There are no adverse effects to any listed or eligible historic resources within the project area.

Social Environment:

Potential Residential & Business Relocations

- Additional right-of-way impacts:
 - 28 parcels
 - 16 residences
 - 0 businesses affected

For more information visit:

FDOT Right-of-Way

fdot.gov/rightofway/default.shtm

Physical Environment: Noise

- Original PD&E Study proposed noise barriers along much of the project corridor
- Additional noise barriers are proposed for construction, where feasible, in areas along Segment B

Evaluation Matrix

EVALUATION CRITERIA	Previously Approved Alternative	Current Preferred Build Alternative
Potential Right-of-Way (R/W) Impacts		
No. of Affected Parcels	15	28
No. of Potential Residential/Business Relocations	0/0	16/0
Additional R/W Needed for Roadway (acres)	0	0.73
Additional R/W Needed for Ponds (acres)	4.5	19.9
Potential Environmental Impacts		
Archaeological / Historic Sites	16	17
Noise-Sensitive Sites	1,054	1,415
Wetlands (acres)	1.63	5.17
Seagrasses (acres)	0.74	1.424
Threatened and Endangered Species	Low	Low
Contamination and Hazardous Material Sites	13	13

Estimated Project Costs

\$	Estimated Project Costs (\$millions)	Current Preferred Build Alternative	
R/W N	eeded	\$12.54	
Preliminary Engineering Design		\$23.22	
Construction		\$331.71	
Construction Engineering Inspection		\$23.22	
Preliminary Estimate of Total Cost		\$390.70

PUBLIC HEARING

Design Change Re-Evaluation

Of the Interstate 275 Project

Development and Environment Study

DATE: September 24, 2019

TIME: 5:30 - 7:30 p.m.

PLACE: 1900 Gandy Boulevard

St. Petersburg, Florida 33702

Executive Reporting Service

- 1 OPENING
- 2 MR. BOGEN: If you can make your way to
- 3 the seats, those who are standing, we're about to begin
- 4 our formal portion.
- If you can please make your way to the
- 6 seats so that we may begin our formal portion.
- 7 Pardon me. Staff, if you would help me to
- 8 direct the people to the seats so that we might begin?
- 9 Good evening. My name is Kirk Bogen and I
- 10 am the Environmental Management Engineer for the
- 11 District 7 of the Florida Department of Transportation
- 12 or FDOT.
- Welcome to the Design Change Re-Evaluation
- 14 of the Project Development and Environment or PD&E
- 15 study public hearing, for Interstate 275, or I-275,
- 16 State Road 93 from south of 54th Avenue South to north
- 17 of 4th Street North, approximately 16.3 miles in
- 18 Pinellas County, Florida.
- 19 The Work Program Item, or WPI, Segment
- 20 number is 424501-1. This environmental study has been
- 21 conducted by FDOT District 7 in compliance with all
- 22 applicable federal environmental laws pursuant to 23
- 23 United States Code Section 327 and the implementing
- 24 Memorandum of Understanding between FDOT and the
- 25 Federal Highway Administration signed on December 14th,

- 1 2016. The Florida -- the FDOT Office of Environmental
- 2 Management in Tallahassee is the approving authority.
- 3 This public hearing is being held to allow
- 4 interested persons the opportunity to provide comments
- 5 concerning the location, conceptual design and social,
- 6 economic, and environmental effects.
- 7 Today is Tuesday, September the 24th,
- 8 2019, and it's approximately 6:32. We're are assembled
- 9 at the First Baptist Church of St. Petersburg located
- 10 at 1900 Gandy Boulevard in St. Petersburg, Florida.
- 11 This public hearing is being held to give
- 12 all interested persons the opportunity to discuss the
- 13 project and to make comments on the Design Change
- 14 Re-Evaluation. Public participation at this hearing is
- 15 encouraged and solicited without regard to race, color,
- 16 creed, religion, sex, age, national origin, disability
- 17 or family status. This public hearing is being held
- 18 and was advertised in accordance with applicable
- 19 Federal and State laws as shown on the citation board
- 20 located next to the sign-in table. This information is
- 21 also provided in the private newsletter you received in
- 22 the mail or here tonight.
- This is your opportunity to receive
- 24 information on the project and officially comment on
- 25 the location and conceptual design for improvements to

- 1 I-275 from south of 54th Avenue South to north of 4th
- 2 Street North. You may also provide comments regarding
- 3 the project documents available here this evening. The
- 4 current Preferred Build Alternative for the I-275
- 5 improvements are based on environmental and engineering
- 6 analyses completed to date, as well as on public
- 7 comment that we have received.
- 8 The current Design Change Re-Evaluation is
- 9 examining the impacts of further changes to the
- 10 approved PD&E Study. Results of the cultural,
- 11 national, social, and physical and environmental
- 12 analyses are contained in the documents on display
- 13 tonight and are available on the project website.
- 14 Staff are available to answer questions regarding these
- 15 reports.
- 16 The current re-evaluation is evaluating
- 17 the addition of two express lanes on 275 from I-375 to
- 18 south of Gandy Boulevard and the addition of a second
- 19 express lane on I-275 from south of Gandy Boulevard to
- 20 north of 4th Street North. These proposed improvements
- 21 would tie in with planned improvements to the Howard
- 22 Frankland Bridge.
- 23 The current re-evaluation also analyzes
- 24 replacing the I-275 bridges on the 4th Street North
- 25 over Big Island Gap and providing trail connections

- 1 from 4th Street North and Ulmerton Road to the Howard
- 2 Frankland Bridge. The current re-evaluation analyzes
- 3 modifications to the Gateway Expressway interchange
- 4 area to provide ramp connections in all directions to
- 5 and from the Gateway Expressway to the proposed express
- 6 lanes on I-275, as well as improvements to the
- 7 southbound I-275 ramps from Gandy Boulevard. The
- 8 current re-evaluation also examines pond site
- 9 requirements from south of 54th Avenue South to north
- 10 of 4th Street North. To meet drainage and stormwater
- 11 requirements, pond sites will be needed to accommodate
- 12 new impervious surface due to widening to accommodate
- 13 express lanes and lane continuity improvements.
- 14 Several of these new pond site locations may be outside
- 15 of the existing right-of-way.
- 16 This project is consistent with Forward
- 17 Pinellas's Long Range Transportation Plan and their
- 18 Transportation Improvement Plan. This project is also
- 19 consistent with the State Transportation Improvement
- 20 Plan and other regional plans.
- 21 Now I'm going to give you some information
- 22 about right-of-way acquisition and how you can make
- 23 comments on the project. On projects such as this, one
- of the unavoidable consequences is the necessary
- 25 acquisition of properties and the relocation of

- 1 families and businesses. For this project, we
- 2 anticipate the relocation of 16 residences and no
- 3 businesses. All right-of-way acquisition will be
- 4 conducted in accordance with Florida Statute 339.09 and
- 5 the Federal Uniform Relocation Assistance and Real
- 6 Property Acquisition Policies Act of 1970, commonly
- 7 known as the Uniform Act.
- If you are required to make any type of
- 9 move as a result of a Department of Transportation
- 10 project, you can expect be treated in a fair and
- 11 helpful manner and in compliance with the Uniform
- 12 Relocation Assistance Act. If a move is required, you
- 13 will be contacted by an appraiser who will inspect your
- 14 property. We encourage you to be present during the
- 15 inspection and provide information about the value of
- 16 your property.
- 17 You may also be eligible for relocation
- 18 advisory services and payment benefits. If you are
- 19 being moved and you are unsatisfied with the
- 20 Department's determination of your eligibility for
- 21 payment, or the amount of that payment, you may appeal
- 22 that determination. You'll be promptly furnished
- 23 necessary forms notified of the procedures to be to
- 24 followed in making that appeal.
- 25 A special word of caution: If you move

- 1 before you receive notification of the relocation
- 2 benefits that you might be entitled to, your benefits
- 3 may be jeopardized.
- 4 The relocation specialists who are
- 5 supervising the program are Joe Murphy and Susan
- 6 Cooper. They will be happy to answer your questions
- 7 and also furnish you with copies of relocation
- 8 assistance brochures.
- 9 Joe and Susan, please identify
- 10 yourselves -- they're back there in the corner -- so
- 11 that anyone who is involved in a relocation on this
- 12 project will know that they need -- know that they need
- 13 to see you regarding their property.
- When you arrived this evening, you should
- 15 have received the project newsletter containing project
- 16 information. If you were not able to sign in or did
- 17 not receive a handout, please stop by the sign-in table
- 18 before leaving this evening. If you have not already
- 19 done so, please watch the presentation that is running
- 20 continuously at the Public Hearing tonight in the
- 21 adjacent rooms. It describes the proposed I-275
- 22 improvements in greater detail.
- Before I continue, I would like to
- 24 recognize any elected officials or their
- 25 representatives who are here tonight. Please stand and

- 1 introduce yourselves for the record.
- 2 MR. JENKINS: I represent Wingate Newton,
- 3 South St. Pete, Pinellas, Hillsborough and Manatee
- 4 County.
- 5 MR. BOGEN: And your name?
- 6 MR. JENKINS: Sam Jenkins.
- 7 MR. BOGEN: Thank you.
- 8 Those who wish to provide comments during
- 9 this formal portion of the Public Hearing should
- 10 complete a speaker's card and submit it to a Department
- 11 representative. If you did not receive a speaker's
- 12 card and would like to make a public comment, please
- 13 raise your hand and an FDOT representative will be
- 14 happy to provide you with one of the comment cards.
- 15 In addition to making an oral statement
- 16 during this formal portion of the hearing, you can also
- 17 make a comment to the court reporter here tonight
- 18 after this formal portion of the Public Hearing. You
- 19 may also submit your comments to the FDOT writing.
- 20 Comments forms can be completed at a later time and
- 21 mailed to us at the preprinted address on the back of
- 22 the comment sheet. You may also email comments to us
- 23 from the project website found on the front of the
- 24 handout. Please keep in mind that comments must be
- 25 postmarked or emailed no later than Friday, October

- 1 4th, 2019, to be included in the official Public
- 2 Hearing record.
- 3 PUBLIC COMMENTS
- 4 We will now begin taking public comments. I
- 5 will call each speaker in order in which their request
- 6 was received. In an effort to accommodate all requests
- 7 to speak, we ask that each speaker keep their comments
- 8 to three minutes. Those who wish to provide additional
- 9 comments may return to the microphone following the
- 10 last speaker, or you may present your additional
- 11 comments directly to the court reporter at the end of
- 12 tonight's hearing.
- 13 As I call your name, please step to the
- 14 microphone and state your name and address before
- 15 making your comment. If you have questions, please see
- one of the FDOT representatives following this portion
- 17 of the hearing.
- 18 Our first speaker is Jonathan Gotwald.
- 19 JONATHAN GOTWALD
- MR. GOTWALD: Put me on the spot.
- 21 I'm Jonathan Gotwald. I live at 1869 76th
- 22 Place North, and I'm an owner in the Meadowlawn
- 23 Sawgrass Addition Subdivision, which could be affected
- 24 by the stormwater pond 18A. And I'd like to just --
- 25 I've submitted documents to the court reporter already,

- 1 so I'm just going to go through some of the brief
- 2 items.
- The Meadowlawn Sawgrass Addition was built in
- 4 1995 and a SWFWMD permit was issued for our stormwater
- 5 pond, which is an active and maintains stormwater pond.
- 6 During the process of the evaluations of all the
- 7 three -- of the two sites, 18A and 18B, the 18A was
- 8 selected over the 18B site, and we had some concerns
- 9 over the -- what were the reasons for that -- those
- 10 selections. And I've found that there were some things
- 11 talked about tonight about the mitigation being
- 12 saltwater-type mitigation that's not available.
- 13 So the focus that we have on it is the
- 14 utilization of the EOA No. 10 site, which is apparently
- 15 moving forward with Pinellas County and SWFWMD trying
- 16 to get the agreement put together. That site is, in
- 17 our opinion, less intrusive to the homeowners in the
- 18 adjacent areas, and we would like to see that as a
- 19 priority, you know, a first priority to utilize that
- 20 site.
- 21 In the stormwater management analysis, the
- 22 report, there was some items in there that were
- 23 identified as related to the -- our site where they
- 24 were taking four homes, our stormwater management pond,
- 25 as well as the wetland and conservation area that are

- 1 part of our subdivision. The areas that were
- 2 identified in the report noted 1.21 acres of wetlands
- 3 and surface water impact to our site. I submit that
- 4 it's closer to 3.1 acres because our stormwater pond is
- 5 a part of our surface water, as well as the
- 6 conservation area that was platted and recorded is a
- 7 part of that wetland habitat with the upland as well.
- 8 The second alternative, the 18B alternative,
- 9 we would like to have that considered heavily as a --
- 10 if the ELA 10A -- ELA No. 10 site doesn't work out with
- 11 the agreement with the county and SWFWMD, we'd like to
- 12 make sure that the School Board site is addressed
- 13 appropriately as maybe the second site because it's not
- 14 impacting homes. We understand it's impacting
- 15 recreation areas, but they also have a stormwater pond
- 16 on their site that could potentially be expanded and
- 17 modified. So there are options there that we'd like to
- 18 have considered.
- 19 Some of the design criteria that were
- 20 identified in -- am I past my three minutes?
- 21 MR. BOGEN: You are getting there, if you
- 22 could wrap up.
- 23 MR. GOTWALD: Okay. Some of the design
- 24 criteria and preliminary calculations in the drainage
- 25 report I would like to question because the design high

- 1 water that was identified -- and I understand they're
- 2 preliminary -- identified it as Elevation 8. All of
- 3 our roads in our subdivision are below Elevation 8 and
- 4 many of our lots are below that. So that functionally
- 5 wouldn't be a permitable solution. We're concerned
- 6 that if that same amount of volume is required, then
- 7 the stormwater pond may have to, you know, expand and
- 8 more homes. Am I over or --
- 9 MR. BOGEN: Yes. But if you could get with
- 10 staff afterwards and -- I know you've gotten with
- 11 staff.
- MR. GOTWALD: I mentioned my three
- 13 alternatives: Priority one is ELA, priority 2 is the
- 14 School Board site and priority 3 is our site. Thank
- 15 you.
- MR. BOGEN: Thank you.
- 17 Our next speaker is Alex Morfesis.
- 18 ALEX MORFESIS
- 19 MR. MORFESIS: Yes, sir, St. Petersburg.
- 20 First question: How does one get a PDF of the project
- 21 documents?
- MR. BOGEN: I'm not answering questions, but
- 23 the material will be on the website within the next
- 24 couple of days.
- MR. MORFESIS: All right. So in terms of

- 1 just as the gentleman described that there is plans on
- 2 sites, there is a site that may or may not be done on
- 3 the -- in the Deuce's area and that's a piece of
- 4 property that was part of a HUD-funded project. So how
- 5 is one going to deal with those issues, where the city
- 6 may or may not have to give back money?
- 7 Also, is there going to be a continuing
- 8 expansion all the way down to 54th for this express
- 9 lane eventually, or -- you know, that's the question I
- 10 have. I don't see how you just stop there and not keep
- 11 going.
- 12 Good luck. That's it.
- MR. BOGEN: All right, thank you for your
- 14 comment.
- 15 Our next speaker is John Estok.
- 16 JOHN ESTOK
- 17 MR. ESTOK: Good evening. My name is John
- 18 Estok. I live in Phillipe Parkway, in Safety Harbor,
- 19 Florida.
- I live in Safety Harbor, so I don't have
- 21 property homeowner issues, so I'm little different.
- 22 The first thing I wanted to say is we don't need these
- 23 toll lanes. The tolls are a rationing device. We do
- 24 need one additional lane south of Gandy to north of
- 25 375, but it doesn't need to be a toll lane.

- 1 The tolls, in case you don't know, won't come
- 2 close to paying for these lanes or better transit
- 3 services that we have been told will come with them.
- 4 The biggest problem is not a lack of lanes, it's too
- 5 many interchanges in too short of an area. These kind
- 6 of roads aren't designed to have interchanges every
- 7 mile, let alone every half a mile or less, which is
- 8 what we have in some places in Tampa and St. Pete.
- 9 The biggest problem with too many
- 10 interchanges that we do have is that they were not
- 11 designed properly in that they result in weaving -- the
- 12 weaving as cars enter from the onramp and have to weave
- around cars having to go off an offramp, and vice
- 14 versa. And this weaving that I spoke about causes the
- 15 bottleneck and congestion we all get stuck in.
- What do I think we do need to do? Well, with
- 17 275 southbound, I think we need any on/entrance ramp
- 18 from Roosevelt Boulevard, 118th Avenue and the Gateway
- 19 Express that they're working on to enter in a single
- 20 lane ramp that either enters in the left fast lane, or
- 21 at the very least is a, what's known as a basket weave
- 22 with the Gandy offbound ramp, so that would prevent
- 23 them from bottlenecking. That is, they don't weave
- 24 together. And second, that the onramp to 275 south
- 25 that comes from Gandy east and westbound enter into a

- 1 new single fourth lane. They are doing a single lane,
- 2 but it's not going to be in a fourth lane; it will have
- 3 to merge in.
- 4 275 northbound, a ramp Gandy eastbound that
- 5 enters into the left fast lane and an onramp from Gandy
- 6 westbound, that's currently not even available. It's
- 7 an incomplete interchange. That's too big of an
- 8 interchange for it to be incomplete like that.
- 9 And I'd also ask that we have a direct
- 10 flyover ramp from 275 north to 118th in the Gateway and
- 11 abolish what we have now, which is this ridiculous
- 12 270-degree angle ramp. It's almost the a circle you
- 13 have to do.
- Regarding lane continuity, this is a problem
- 15 that results from left exits. We need to abolish left
- 16 exits and particularly left exit-onlys.
- 17 And one big disappointment I have is that
- 18 nothing's done with the first lane continuity issue,
- 19 that is 275 north, the exit on lane to lane change at
- 20 54th Avenue South. Thank you.
- 21 MR. BOGEN: Thank you for your comment.
- Our next speaker is Toby Vongkoht.
- 23 Did I get it right?
- MR. VONGKOHT: Yes, that fine.
- 25 My name is Toby Vongkoht. I live at 8164

Executive Reporting Service

- 1 Martin Lane in Seminole. I just heard about this a
- 2 couple hours ago on Facebook, so I decided to skip work
- 3 and come here instead. And what concerned me the most
- 4 about this project as a far as Segment B and C goes is
- 5 that express lanes, also called Lexus lanes, are going
- 6 to be added to the major corridor for transporting
- 7 people and goods, and I just kind of think that's not
- 8 really the most -- I don't want to say broader way of
- 9 looking at the transportation issue here. I know
- 10 congestion is a huge problem on the other side of the
- 11 Howard Frankland Bridge and the other plans a couple
- 12 years ago regarding that bridge and extending express
- lanes or potential light rail on that bridge would be
- 14 possible, and kind of going along with those lines, I
- 15 kind of think maybe designated bus lanes would be a
- 16 little bit more appropriate for this area, mainly
- 17 because, I mean, the amount of people that you can fit
- 18 into a bus versus the amount of cars take up similar
- 19 space, it's just kind of ridiculous that people would
- 20 prefer to be in their cars. And also, especially since
- 21 there's a lot of people that come to St. Pete from the
- 22 airport, it's just kind of a shame that a lot of
- 23 visitors just really don't have a means to get around
- 24 other than by private car. And I just think that
- 25 investing in public transportation would be a better

- 1 way to serve the people of this area, especially for
- 2 these who want to stay in their cars. They wouldn't be
- 3 forced to drive in such congested situations.
- 4 That's all.
- 5 MR. BOGEN: Thank you for your comment.
- 6 Our next speaker is Manuel Rodriguez.
- 7 MANUEL RODRIGUEZ
- 8 MR. RODRIGUEZ: Hi, my name is Manuel
- 9 Rodriguez. I live at 1868 76th Place North. So I
- 10 wanted to kind of talk about the human impact.
- I lived in St. Petersburg for nearly 40
- 12 years, all in the same ZIP code, 33702. I've lived in
- 13 my current home for about 20 years, and I'd like to
- 14 mention the social impact of this project, particularly
- 15 with respect to the -- to the retention pond on 76th
- 16 Place North.
- 17 The neighborhood is about 20 years old. The
- 18 neighbors moved in there about the same time. Their
- 19 kids grew up together and the neighborhood gathers to
- 20 together multiple times a year for events including
- 21 Halloween, Super Bowl, and a yearly event where we
- 22 obtain a permit to close the street for family and
- 23 neighborhood get-togethers.
- In addition to the human impact, we're
- 25 concerned about the flooding concerns and possible

- 1 flooding.
- 2 Please save our neighborhoods. Thank you.
- MR. BOGEN: Thank you for your comment.
- 4 Our next speaker is Mark Calvert.
- 5 MARK CALVERT
- 6 MR. CALVERT: Mark Calvert, Tierra Verde.
- 7 I've been a frequent traveler into South Florida and
- 8 also been a frequent user of some of the managed toll
- 9 lanes in South Florida. I'd rather have a managed toll
- 10 lane than no road at all. I've been able to take
- 11 advantage of those and save significant amounts of
- 12 time. Yes, I've paid 10 or \$15 for a toll to go from
- 13 Miami to Ft. Lauderdale, but that was 24 miles. 50
- 14 cents a mile, saving half an hour or more during rush
- 15 hour, seems like a pretty good deal.
- So I'm a supporter of the managed access
- 17 lanes. And I saw many, many express buses take
- 18 advantage of those lanes as well.
- 19 Likewise, I appreciate FDOT getting ahead of
- 20 traffic congestion on 275 in Pinellas County. Unlike
- 21 Tampa and Orlando, and of course, South Florida, we
- 22 have an opportunity to solve the problem before it
- 23 becomes a big mess. And we have a great opportunity to
- 24 do that and do that quickly before growth takes over
- 25 and moves forward in construction there.

- 1 But likewise, I'm also very concerned about
- 2 some of the other access, particularly for evacuation
- for those of us that are in south Pinellas County.
- 4 We've also had some potential impact with other
- 5 residential streets such as 34th Street South and
- 6 Pasadena Avenue for lane elimination, which doesn't
- 7 help for local access and also does not help for any
- 8 evacuation needs as well.
- 9 So I'm excited that this project is being
- 10 considered and planned, and I'm -- and it's good for
- 11 evacuation, it's good for access, it will be good for
- 12 transit. Thank you. And as well as improved mobility
- 13 for everybody. Thank you.
- MR. BOGEN: Thank you for your comment.
- 15 All right, our next speaker is Sharon
- 16 Calvert.
- 17 SHARON CALVERT
- 18 MS. CALVERT: I'm Sharon Calvert and I live
- in Tierra Verde and I also support the preferred bill
- 20 that will implement two managed lanes in each
- 21 direction. I believe this will be a good fit with the
- 22 Gateway Express and the improvements that will be made
- 23 to the Howard Frankland Bridge and on into Tampa.
- 24 I am also concerned. I live in Tierra Verde
- 25 and 275 is my gateway out. We need that access and

- 1 capacity for evacuation as well as just use. And I am
- 2 concerned that with some of the projects that are --
- 3 are looking to put some other roads on road diets, that
- 4 this additional access is needed. It works very
- 5 successfully in South Florida. Buses can use it; I
- 6 think even school buses can use it. So I'm looking
- 7 forward and I'm appreciative that FDOT is looking to
- 8 put this capacity in place now and not wait. Thank
- 9 you.
- 10 MR. BOGEN: Thank you.
- 11 Our next speaker is Mark Ballenger.
- 12 MARK BALLENGER
- MR. BALLENGER: My name is Mark Ballenger. I
- 14 live at 2335 64th Place North. It's a little community
- 15 of 26 home sites called the Oaks of Meadowlawn. I've
- 16 lived there about 25 years.
- 17 One of the things I want DOT to address is
- 18 the problem that expanding the road is going to have on
- 19 a particular road, 65th Place North and I-275. It
- 20 constantly floods whenever there is heavy downpours
- 21 now, so I'm kind of curious to know what DOT is going
- 22 to do to mitigate the impact of a larger road that
- 23 is -- a larger road, and now compacting the problem
- 24 there on 65th Place North.
- I also have, and many of our neighbors have

- 1 in this area some large trees that apparently it will
- 2 fall within the installation area of the noise
- 3 abatement wall, or the noise barrier wall. And we're
- 4 concerned of the damage and we need to know if FDOT is
- 5 going to engage an arborist to do a study to make sure
- 6 that these trees will not be impacted, and if they are
- 7 impacted, then they will do something to remove them
- 8 and replace them.
- And one other thing, one last thing, I'd like
- 10 for you-all to do is stop calling this an express lane.
- 11 Please call it what it is: It is a toll lane. And I
- 12 think it's confusing to many people who read this that
- 13 see it says "express lane," they are unaware it says
- 14 it's a toll lane. Thank you.
- MR. BOGEN: Thank you.
- 16 Our next speaker is Donald Wiederecht.
- 17 DONALD WIEDERECHT
- MR. WIEDERECHT: My name is Donald Wiederecht
- 19 and I own a house with Victoria Wiederecht, my wife,
- 20 and I live with two children.
- 21 We bought the house in 1996. It was a
- 22 beautiful site when we got it. There was a preserve in
- 23 the back. And we said, "This is a wonderful
- 24 neighborhood; you know, this is the perfect place to
- 25 spend the rest of your life."

- 1 And when we got the newsletter, it really
- 2 didn't go into any kind of eminent domain, and we feel
- 3 that the FDOT not sending us any type of letter is not
- 4 very good for people who live in this general area.
- 5 Because we're one of the four houses that are affected
- 6 in Meadowlawn Sawgrass. I live at 7620 19th Street
- 7 North, and we are one of the houses that are affected
- 8 by this.
- 9 I -- I know John made his point about where
- 10 the pond could go, and I -- I support that 100 percent.
- 11 I think there needs another site. I'd like to keep
- 12 this neighborhood intact. There are a lot of great
- 13 people that live in this neighborhood that are planning
- on staying in this neighborhood, and I feel that you
- 15 really could go beyond this and try to use either the
- 16 School Board site or the Meadowlawn -- the Sawgrass
- 17 Park site.
- I really believe that this is crucial that we
- 19 consider all these other options before we decide to
- 20 take houses away from people.
- 21 MR. BOGEN: Thank you for your comment.
- Our next speaker is Dale Tindall.
- 23 DALE TINDALL
- MR. TINDALL: Is this it here?
- 25 MR. BOGEN: Yes, sir.

Executive Reporting Service

- 1 MR. TINDALL: Yeah, I'm Dale Tindall. I live
- 2 on Los Prados Drive in Safety Harbor, Florida.
- 3 And I think -- I just looked at the green
- 4 lines back there and I think when the Gateway project
- 5 merges into the existing capacity, that the ramp is
- 6 kind of short there. I think you need to make those
- 7 longer; okay?
- 8 And then I want to share with everyone in
- 9 this group that we, in Pinellas, have paid the price
- 10 for nearly 20 years by the lack of capacity to get
- 11 through malfunction junction. And oh, by the way, when
- in FDOT's big plan is malfunction going to be fixed?
- 13 And the answer is, last.
- Now, the good news is that they're currently
- working and a year from now we will have morning rush
- 16 hour to Tampa -- it will work great. However, our
- 17 afternoon rush hour is going to be screwed for an
- 18 additional 6 to 8 to 10 years.
- 19 So I want everyone to know that they're not
- 20 going to fix malfunction junction for another 10 years.
- 21 And to me, that's their No. 1 problem and that's the
- 22 last thing they want to fix. And that just frustrates
- 23 me.
- 24 MR. BOGEN: Thank you for your comment.
- Our next speaker is Veatrice Farrell.

- 1 VEATRICE FARRELL
- MS. FARRELL: Good evening. My name is
- 3 Veatrice Farrell. I'm here representing an
- 4 organization, the Deuces Live. It's a Main Street on
- 5 Second Street South.
- 6 First I'd like to acknowledge and thank the
- 7 FDOT representatives that were present at our May 2019
- 8 meeting.
- 9 My comments are regarding the I-275 PEE pond
- 10 sites. There are eight sites located outside of
- 11 FDOT-owned right-of-ways. One is located on
- 12 22nd Street South in St. Petersburg, 7B.
- The consensus during our general board
- 14 meeting was fierce opposition to a pond proposed on
- 15 this corridor. I am here in person because it was
- 16 suggested that that wasn't the time to make our fierce
- 17 opposition known, but to show up at the Public Meeting
- 18 and express our fierce opposition to the pond suggested
- 19 on 7B.
- The ELA mentions that there are going to be
- 21 several meetings and studies, and I would just ask that
- 22 these -- the notices regarding these studies are public
- 23 and noticed very frequently in the area so that we'll
- 24 know to show up and be in opposition to 7B. Thank you.
- MR. BOGEN: Thank you for your comment.

- 1 That was the last speaker's card that I have.
- 2 Is there anyone else who would like to make a
- 3 statement?
- 4 Seeing none, the public hearing transcript,
- 5 written statements, exhibits and reference material
- 6 will be available for public inspection at the FDOT
- 7 District 7 office at 11201 North McKinley Drive, Tampa,
- 8 Florida within three weeks.
- 9 It is approximately 7:04, and I hereby close
- 10 the formal portion of the public hearing for the Design
- 11 Change Re-Evaluation of the Interstate 275 from south
- of 54th Avenue South to north of 4th Street North, the
- 13 Florida Department of Transportation thanks you for
- 14 attending.
- 15 Remember to be alert today, alive tomorrow.
- 16 Safety doesn't happen by accident.
- 17 Have a good evening.
- * * * * *
- 19 PRIVATE STATEMENTS
- 20 KATHY JANE WATTS
- 21 MS. WATTS: I have lived in my house for 32
- 22 years at 3923 21st Street North. I started working
- 23 hard when I was 28 years old so that my house would be
- 24 paid off when I was in my 60's. Now, when I only pay
- 25 \$648 a month mortgage and \$498 taxes a year for my

- 1 property, you guys are talking about building an
- 2 interstate and widening it, and it's going to disrupt
- 3 my life and ruin my life because I've lived in
- 4 St. Petersburg, Florida my whole entire life, except
- 5 for five years.
- 6 My parents moved me here when I was five, in
- 7 1965. I went to elementary, I went to middle school
- 8 and I went to high school and I went to college here at
- 9 St. Pete College. So you're going to get rid of a good
- 10 citizen because there's no houses I can buy for what I
- 11 have. And it's almost paid off. And that's sad. And
- 12 I work in Tampa, so I'm up there every day.
- 13 And this is breaking my heart because you
- 14 just destroyed my dreams of 32 years. I raised my
- 15 daughter in that house. I brought her home from
- 16 Bayfront. She went to school here. I mean, there's a
- 17 lot of history. And it's sad. And you're not going to
- 18 give me enough money to even come close to what I have
- 19 now. All I'm going to do is have to start over while
- 20 you open up expressways that make billions.
- 21 So that's how I feel. And I wanted you to
- 22 know that you've broken my heart.
- 23 MIKE CORSON
- 24 MR. CORSON: My name is Michael Corson,
- 25 C-o-r-s-o-n. I live at 4600 Xenia Street North,

- 1 St. Petersburg, Florida.
- 2 And I think that the eminent domain that's
- 3 looming over all of us that have houses that are going
- 4 to be taken is unnecessary. It seems like there are
- 5 other sites that are more viable. And just from -- you
- 6 know, it's better to go with those sites than to take
- 7 people's houses. That doesn't seem like there is much
- 8 of a benefit when there are other options. Thank you.
- 9 (The comments and meeting were closed at 7:30)
- * * * * *
- 11 SLIDE PRESENTATION
- 12 SLIDE 1: The Florida Department of
- 13 Transportation, or F-D-O-T, welcomes you to the Public
- 14 Hearing for the Design Change Re-Evaluation of the
- 15 Interstate 275, or I-275, Project Development and
- 16 Environment, or PD&E, Study.
- 17 SLIDE 2: This meeting is being conducted to
- 18 provide interested citizens an opportunity to ask
- 19 questions and offer comments about the alternative
- 20 being proposed for this project. This study satisfies
- 21 the National Environmental Policy Act, or NEPA, and
- 22 other applicable policies, regulations, and procedures.
- 23 This project complies with non-discrimination laws and
- 24 regulations. Public participation is solicited without
- 25 regard to race, color, national origin, age, sex,

- 1 religion, disability, or family status. For the full
- 2 list of federal and state requirements, please see the
- 3 citation board located at the sign-in table.
- 4 SLIDE 3: We are here tonight to discuss the
- 5 current Design Change Re-Evaluation for I-275 from
- 6 south of 54th Avenue South to north of 4th Street North
- 7 in Pinellas County, Florida. The Work Program Item, or
- 8 WPI, Segment number for this project is 424501-1. To
- 9 better describe the transportation needs, the study
- 10 corridor is divided into three unique segments:
- 11 Segment A is from south of 54th Avenue South to I-175,
- 12 a distance of 4.6 miles; Segment B is from I-175 to
- 13 south of Gandy Boulevard, a distance of 6.0 miles; and
- 14 Segment C is from south of Gandy Boulevard to north of
- 15 4th Street North, a distance of 5.7 miles.
- 16 SLIDE 4: The project presented tonight is
- 17 part of Tampa Bay Next, which is a program to modernize
- 18 our region's transportation infrastructure and prepare
- 19 for the future. The goal of Tampa Bay Next is to
- 20 improve safety and mobility through innovation,
- 21 collaboration, and community engagement in the region.
- 22 The program includes projects to modernize the
- 23 interstates of I-4, I-275 and I-75 in Pinellas and
- 24 Hillsborough Counties, and is looking at ways to
- 25 integrate transit, bicycle and pedestrian

- 1 opportunities.
- 2 SLIDE 5: The purpose of the original PD&E
- 3 Study and subsequent re-evaluations is to provide
- 4 documented environmental and engineering analysis that
- 5 will help the FDOT Office of Environmental Management,
- 6 or OEM, reach a decision on the type, conceptual
- 7 design, and location of the necessary improvements
- 8 within the I-275 study limits. The proposed
- 9 improvements are needed to improve existing operational
- 10 deficiencies on I-275, address present and future
- 11 traffic congestion, and maintain mobility for freight
- 12 and goods movement along a regionally significant
- 13 transportation corridor. The proposed improvements are
- 14 intended to enhance safety and address future travel
- 15 demands to accommodate anticipated growth in Pinellas
- 16 County and the region.
- 17 SLIDE 6: The original PD&E Study began in
- 18 2012 and concluded with approval of the Type II
- 19 Categorical Exclusion, or Type II CE, in July 2016.
- 20 The 2017 Design Change Re-Evaluation was approved in
- 21 April 2017. The current Design Change Re-Evaluation
- 22 began in August 2018. The following slides provide
- 23 more details.
- 24 SLIDE 7: The original PD&E Study evaluated
- 25 the need for interchange safety and operational

- 1 improvements including lane continuity improvements to
- 2 provide two continuous general use lanes in Segments A
- 3 and B. The original PD&E Study also evaluated the
- 4 addition of two express lanes in Segment C. Following
- 5 a public hearing in September 2015, the Federal Highway
- 6 Administration, or FHWA, approved the Type II
- 7 Categorical Exclusion, or Type II CE, in July 2016 for
- 8 these improvements.
- 9 SLIDE 8: The 2017 Design Change
- 10 Re-Evaluation evaluated repurposing the approved
- 11 express lanes within Segment C to accommodate three
- 12 general purpose lanes, one auxiliary lane, and one
- 13 express lane in each direction from south of Dr. Martin
- 14 Luther King, Jr. Boulevard North to north of 4th Street
- 15 North. The 2017 re-evaluation was approved by the FDOT
- 16 Office of Environmental Management in April 2017.
- 17 SLIDE 8: The current Design Change
- 18 Re-Evaluation is evaluating impacts of further changes
- 19 to the approved PD&E Study, including the addition of
- 20 two express lanes from I-375 to Gandy Boulevard in
- 21 Segment B and the addition of a second express lane
- 22 from Gandy Boulevard to north of 4th Street North in
- 23 Segment C. Additionally, the re-evaluation is
- 24 addressing changes to the Gateway Expressway
- 25 Interchange and Gandy Boulevard Interchange, new trail

- 1 connections between the Howard Frankland Bridge,
- 2 Ulmerton Road, and 4th Street North, replacement of the
- 3 4th Street North ramp bridges over Big Island Gap, and
- 4 pond sites along the entire corridor.
- 5 SLIDE 9: Within Segment B from I-375 to
- 6 Gandy Boulevard, the Current Preferred Build
- 7 Alternative adds two buffer-separated express lanes in
- 8 each direction. The new express lanes are accommodated
- 9 by widening within current right-of-way limits. The
- 10 widening will occur in the median and to the outside of
- 11 the existing pavement. This alternative includes
- 12 12-foot-wide paved outside shoulders to allow for
- 13 bus-on-shoulder operations.
- 14 SLIDE 10: Within Segment C, the Current
- 15 Preferred Build Alternative adds one additional
- 16 buffer-separated express lane in each direction. The
- 17 express lanes are accommodated by widening within
- 18 current right-of-way limits. The widening will occur
- 19 in the median and to the outside of the existing
- 20 pavement. Throughout this segment, the extent of inside
- 21 and outside widening varies to reduce conflicts with
- joints between new and existing pavement.
- 23 SLIDE 12: The Current Preferred Build
- 24 Alternative improves ramp connections to southbound
- 25 I-275 from Gandy Boulevard. The two southbound

- 1 on-ramps from westbound and eastbound Gandy Boulevard
- 2 will be combined, creating a single access to
- 3 southbound I-275.
- 4 SLIDE 13: The Current Preferred Build
- 5 Alternative provides additional connectivity at the
- 6 Gateway Expressway Interchange. New direct express
- 7 lane connections will be provided between the Gateway
- 8 Expressway and I-275 via new flyover ramps that enter
- 9 and exit I-275 from the median.
- 10 SLIDE 14: The Current Preferred Build
- 11 Alternative includes replacement of the 4th Street North
- 12 ramp bridges over Big Island Gap. Bridge replacement
- 13 will accommodate the trail connection.
- 14 SLIDE 15: The Current Preferred Build
- 15 Alternative also includes a new 12-foot-wide trail
- 16 along the west/north side of I-275. The trail connects
- 17 from the proposed trail on the Howard Frankland Bridge
- 18 south to 4th Street North and west to Ulmerton Road. On
- 19 the causeway, the trail will be separated from travel
- 20 lanes by a concrete barrier and railing.
- 21 SLIDE 16: This re-evaluation included an
- 22 evaluation of impacts and locations of pond sites to
- 23 meet drainage and stormwater requirements. Pond sites
- 24 will be needed to accommodate new impervious surfaces
- 25 due to widening to provide express lanes. Several of

- 1 these pond site locations may be outside of the
- 2 existing right-of-way. FDOT is working with the City
- of St. Petersburg, Pinellas County, and the Southwest
- 4 Florida Water Management District through a separate
- 5 Environmental Look-Around process to identify regional
- 6 water quality improvements or joint use projects that
- 7 could result in the reduction of the number of pond
- 8 sites or reduce pond sizes.
- 9 SLIDE 17: The original PD&E Study looked at
- 10 various environmental and engineering factors in the
- 11 alternative analysis including construction costs and
- 12 right-of-way needs, as well as impacts to natural and
- 13 cultural resources, and the social and physical
- 14 environment. The current Design Change Re-Evaluation
- 15 evaluated the changes to those impacts related to the
- 16 proposed improvements considered as part of the Current
- 17 Preferred Build Alternative.
- 18 SLIDE 18: The natural resources assessed as
- 19 part of this re-evaluation included wetlands and
- 20 surface waters, seagrasses, and protected species and
- 21 habitat. The addition of express lanes and a trail in
- 22 Segment C resulted in 1.424 acres of seagrass impacts.
- 23 Improvements proposed throughout the project corridor
- 24 resulted in 5.17 acres of wetland impacts.
- 25 SLIDE 19: Section 106 (one-oh-six) of the

- 1 National Historic Preservation Act requires agencies to
- 2 consider the effects of their actions on historic
- 3 properties. There are 17 historic resources in the
- 4 project area that are either listed on the National
- 5 Register of Historic Places or considered eligible for
- 6 listing. There are no anticipated adverse effects on
- 7 any of the identified historic resources.
- 8 Slide 20: To accommodate the anticipated
- 9 pond sites, additional right-of-way may be needed. 28
- 10 parcels may be affected and 16 residences may require
- 11 relocation. FDOT staff is available today to speak
- 12 with you about the right-of-way process or you can
- 13 visit the FDOT Right-of-Way website for more
- 14 information.
- 15 SLIDE 21: Traffic noise from the proposed
- 16 improvements is expected to impact properties along the
- 17 corridor. FDOT is committed to constructing additional
- 18 noise barriers where feasible during the construction
- 19 phase of the project.
- 20 SLIDE 22: This draft evaluation matrix
- 21 compares the impacts associated with the Previously
- 22 Approved Alternative, from the PD&E Study or 2017
- 23 re-evaluation, with the Current Preferred Build
- 24 Alternative. The evaluation included anticipated
- 25 impacts, such as environmental resources and

- 1 right-of-way, as well as the estimated cost to acquire
- 2 right-of-way needed for pond sites and to construct the
- 3 project. Please refer to the display board for more
- 4 information about impacts to environmental resources
- 5 and right-of-way.
- 6 SLIDE 23: Right-of-Way Acquisition is funded
- 7 for the pond sites in Fiscal Year 2022 for Segments A
- 8 and B. Design and Construction is partially funded for
- 9 Segments A and B in Fiscal Year 2024.
- 10 SLIDE 25: The Current Re-evaluation began in
- 11 August 2018 and the evaluation and preparation of
- 12 environmental documents for public review was completed
- over the past year. In addition to tonight's public
- 14 hearing, we have conducted numerous small group
- 15 meetings with neighborhood groups along the I-275
- 16 corridor and have coordinated with local and state
- 17 review agencies, including Forward Pinellas, the
- 18 County's Metropolitan Planning Organization.
- 19 Following tonight's hearing, the study team will review
- 20 all public input, finalize the documents and submit to
- 21 the Office of Environmental Management for review and
- 22 final approval, which is anticipated in winter
- 23 2019/2020.
- 24 SLIDE 25: Project documents are available
- 25 for review on the project website, or at the Barbara S

- 1 Ponce Public Library located at 7770 52nd Street North
- 2 in Pinellas Park and at the FDOT District Seven office
- 3 located at 11201 North McKinley Drive in Tampa. The
- 4 documents have been on display since September 4th and
- 5 will be on display until October 4th.
- 6 SLIDE 26: There are several ways to make a
- 7 comment as part of the public hearing record. You can
- 8 speak directly to the court reporter who is here this
- 9 evening. The court reporter will also record verbatim
- 10 the comments stated during the formal portion of the
- 11 public hearing, which begins at 6:30 p.m. An FDOT
- 12 representative will be moderating the formal public
- 13 comment portion and may limit speaking times. Please
- 14 complete a speaker card and give it to a representative
- 15 at the sign-in table to indicate your interest to speak
- 16 publicly. You may also complete a comment form and
- 17 drop it in one of the comment boxes or mail written
- 18 comments to the address provided on the back of the
- 19 form. Comment forms are available at the comment table.
- 20 All comments must be received or postmarked by Friday,
- 21 October 4, 2019 to become part of the public hearing
- 22 record. All comments received, regardless of how they
- 23 were submitted, will be reviewed and considered.
- 24 SLIDE 27: Thank you for attending tonight's
- 25 public hearing for the I-275 Design Change

Page 37 Re-Evaluation. We appreciate your participation. Remember to be alert today. Alive tomorrow. Safety doesn't happen by accident.

Public Hearing Comments and Responses

I-275 / SR93 PD&E Study

WPI Segment No.: 424501-1

Name	Fmail [Date Address	Source	Comment Concerns/Tonic	Overall Support	Actual Comment	FDOT Response	Comment Response Type	Project Mailing List Status
Diane McCabe	Imccabe001@tampabay.rr.com	9/15/2019 1838 76 Place North, St. Petersbu	g, FL, Website Comment	Drainage or stormwater management (general flooding)	Not in Favor	Tam opposed to the proposed plan for a retention pond, as it will have a negative impact on the current stormwater system, and will increase our flood risk. (the pond will elevate the community in which I reside) As a 24 year resident in this neighborhood please reconsider this plan.	Ms. McCabe. Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project regarding impacts to properties in the Meadowlawn area. Your comments will be included in the official public record for this project and you will be added to the project mailing list. The Re-evaluation effort included an evaluation of stormwater impacts associated with planned improvements. As discussed at the public hearing, the FDDT is also conducting an Environmental Look Around (ELA) to identify opportunities to reduce or eliminate right-of-way required for pand sites identified in the PD&E study. The ELA is ongoing and pond locations will be finalized in design. Also please note that pond design information included in the draft Stormwater Management Facility Stiing Report is based on preliminary information. Additional geotechnical investigation and survey will be completed during the design phase to establish final pond sizes and elevations. For more information on the stormwater management concerns you identified in your comments, please access the project website and review the Stormwater Management Facility Siting Report (DRAFT) and the Location Hydraulics Memorandum (DRAFT) under the Public Involvement-Project Documents tab at http://active.fdotd7studies.com/c75/54th-to-4th/. Sandra Cyerhuni	Skele 8287@gmail.com	9/24/2019 7661 18 Way N, St. Pete, FL, 3376	2 Hearing Writte Comment	n Drainage or stormwater management (general flooding)	Not indicated	I'm concerned with the drainage and flooding due to trees coming down, will flood zones be affected?	Ms. Cyerhuril, Thank you for attending the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study Public Hearing and for providing comments on the project. Your comments will be included in the official public record for this project and you will be added to the project mailing list. For more information on the concerns you identified in your comments, please access the project website and review the Location Hydraulics Memorandum (DRAFT) and the Stormwater Management Facility Sting Report (DRAFT) under the Public Involvement>Project Documents tab: http://active.fdotd7studies.com/i275/54th-to-4th/.	Detailed Response	
Mark Ballenger	mark@ballengerirrigation.com	9/24/2019 2335 64th PL N, St. Pete, FL 3370	Hearing Forma Oral Comment	al Drainage or stormwater management (general flooding); Concern about Noise Barriers Impacts	Not indicated	My name is Mark Ballenger. I live at 2335 64th Pface North. It's a little community of 26 home sites called the Oaks of Meadowawn. I vel fived there about 25 years. One of the things I want DOT to address is the problem that expanding the road is going to have on a particular road, 65th Pface North and 1-275. It constantly floods whenever there is heavy downpours now, so I'm kind of curious to know what DOT is going to do to mitigate the impact of a larger road that is — a larger road, and now compacting the problem there on 65th Pface North. I also have, and many of our neighbors have in this area some larger trees that apparently it will fall within the installation area of the noise abatement wall, or the noise barrier wall. And we're concerned of the damage and we need to know if FDOT is going to engage an arborist to do a study to make sure that these trees will not be impacted, and if they are impacted, then they will do something to remove them and replace them. And one other thing, one last thing, I'd like for you-all to do is stop calling this an express lane. Please call it what it is: It is a toll lane. And I think it's confusing to many people who read this that see it says "express lane," they are unaware it says it's a toll lane. Thank you.	providing comments on the project. Your comments will be included in the official public record for this project and you will be added to the project maling list. The Re-evaluation effort included evaluations of stormwater and noise impacts associated with planned improvements. The evaluation of stormwater impacts resulted in recommendations for new stormwater management facilities and the noise study resulted in a recommendation for the construction of noise barriers along segments of 1-275. For information	Detailed Response	
Mary Naylor	Gone31@aol.com	8/31/2019 5533 25th. St. N., St. Petersburg, 33702	L Website Comment	Drainage or stormwater management (general); Support for Noise Barriers	Not indicated	Being a layperson it is difficult to understand what all these diagrams and explanations mean. You can see, by my address that my house backs up to 1275. I already deal with extensive backyard flooding from the run of from the interstate which runs behind my property. I have had the water up to mid calf in the past. The noise is also increasing. There is a need for proper drainage in the strip of county property between my yard and 1275. Also a wall on the interstate would decrease the noise. If you are planning to increase the amount of traffic on this strip of interstate this would add to the run-off and the noise level. Also I was unable to decipher if personal properties would be involved. I'm sure more property owners would be interested in attending this meeting if the information you sent was easier to comprehend.	Ms. Naylor, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments through the project website. Your comments will be included in the official public record for this project and we will add you to the project mailing list. The Re-evaluation effort included evaluations of stormwater and noise impacts associated with planned improvements. The evaluation of stormwater impacts resulted in recommendations for new stormwater management facilities and the noise study resulted in a recommendation for the construction of noise barriers along segments of 1-275. For information on the proposed location of stormwater management facilities and noise barriers, please access the project website and review the Stormwater Management Facility Stilling Report (DRAFT) and the Noise Study Report Update (DRAFT). The reports can be found under the Public Involvement>Project Documents tab at http://active.fdotd7studies.com/0275/54th	Detailed Response	Add to project mailing list
Barbara & Jacques Hunter	Suncoww1@aol.com	9/24/2019 1298 Conova Blvd NE, St. Peterst FL, 33704	rg, Hearing Writte Comment	n Drainage or stormwater management (Pond Site 18A)	Not indicated	Traditional pond 18A affects 4 hones east side of 1-275. We are 1 of 4 homes affected by FBOT 1-275 Widening Project. Our home site is 1 of 4, our address affected is 7840 199ft. SN 18-20-200 199ft. SN 18-20-200 199ft. SN 18-20-200 199ft. Environmental Look Around option. This will leave the 4 houses affected as is. We are available by phone 727-520-7668 Jaques and Barbara Hunter.	Mr. and Mrs. Hunter, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study, attending the public hearing, and for providing comments regarding impacts to properties in the Meadowlawn area. Your comments will be included in the official public record for this project. The Re-evaluation effort included an evaluation of stormwater impacts associated with planned improvements. As discussed at the public hearing, the FDDT is also conducting an Environmental Look Around (ELA) to identify opportunities to reduce or eliminate right-of-way required for pond sites identified in the PD&E study. The ELA is ongoing and pond locations will be finalized in design. Also please note that pond design information included in the draft Stormwater Management Facility Siting Report is based on preliminary information. Additional geotechnical investigation and survey will be completed during the design phase to establish final pond sizes and elevations. 						to our site. I submit that it's closer to 3.1 acres because our stormwater pond is a part of our surface water, as well as the conservation area that was platted and recorded is apart of that wetland habitat with the upland as well. The second alternative, the 18B alternative, we would like to have that considered heavily as aif the ELA 10A ELA No. 10 site doesn't work out with the agreement with the county and SWFWMD, we'd like to make sure that the School Board site is	project website and review the Stormwater Management Facility Sting Report (DRAFT) and the Location Hydraulics Memorandum (DRAFT) under the Public Involvement>Project Documents tab at http://active.totot/fstudies.com/ii/275/54th-to-4th/. Also, FDOT considers the notification of study impacts an important part of the process and follows quidelines			
						site doesn't work out in the agreement with the country and sever with, we direct or make sure that the Scholor board site is addressed appropriately as maybe the second site because it's not impacting homes. We understand it's impacting recreation areas, but they also have a stormwater pond on their site that could potentially be expanded and modified. So there are options there that we'd like to have considered. Some of the design criteria that were identified in	established in the Project Development and Environment (PD&E) Manual.			
						Okay. Some of the design criteria and preliminary calculations in the drainage report I would like to question because the design high water that was identified: a and I understand they're preliminary - identified it and Elevation 8. All of our roads in our subdivision are below Elevation 8 and many of our lots are below that. So that functionally wouldn't be a permitable solution. We're concerned that if that same amount of volume is required, then the stormwater pond may have to, you know, expand an more homes.	d			
						I mentioned my three alternatives: Priority one is ELA, priority 2 is the School Board site and priority 3 is our site. Thank you.				
Julie Clayton Harrison	julieharrison@yahoo.com	9/24/2019 1848 76th Place North, St. Petersburg, FL 33702	Hearing Written Comment	Drainage or stormwater management (Pond Site 18A)	Not indicated	As homeowners in the Meadowlawn Sawgrass Addition - We ask you to please reconsider the plans to remove four homes at the end of 76th place to be used to extend a retention pond for I-275. Instead please consider using the School Board property Sawgrass Elementary School or please also consider the alternative to extend a retention pond in the Sawgrass wetlands. Please leave our neighborhood in tact. We are also concerned about possible flooding by removing our designated Sawgrass addition pond. The two other alternatives would note disturb homeowners.	Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing	Detailed Response

Thomas Cady	tcady63@gmail.com	9/24/2019 1879 76th PI N, St. Petersburg, FL 33702 Webs Comm	Drainage or stormwater management (Pond Site 18A) it	Not in Favor	I have some concerns regarding the selection of a stormwater pond site for basin 18. The November 2018 responses to comments in Appendix F of the Stormwater Management Facility Stiffing Report has a comment mentioning three (3) pond location options for basin 18 (18A, 18B, & 18C) with the least desirable being the option that would impact residential property. The response concurred with this view. One month later, a December 2018 response assumes comment #6 is referencing alternative 18B instead of 18C as there is no pond alternative 18C thus inclicating that one of the options has, seemingly, vanished from consideration. Ultimately the siting report settles on the pond location option that impacts residential property in direct conflict with what was stated by both reviewer and consultant in the November 2018 comments and responses. Additionally, the Environmental Look Around Documentation of the SMF Stifting Report, Appendix I, has a detail page for ELA opportunity #11 ob un ton to for opportunity #11. Opportunity #11 consists of the Sawgrass Lake Elementary School pond location option east of 1-275 and north of Turner Creek. Hopefully the lack of a detail for opportunity #11 does not indicate it was being removed from consisteration to as it is an alternative that does not impact residential property and the Environmental Look Around itself indicates that it is the PD&E preferred pond in the ELA Approach table.	Mr. Cady, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project regarding impacts to properties in the Meadowlawn area. Your comments will be included in the official public record for this project and you will be added to the project maling list. 							attached to this memorandum show all areas where additional rights-of-way are required.			
Kathy Jane Watts		9/24/2019 3923 21st Street North, St FL	: Petersburg Hearing Court Reporter Comment	Drainage or stormwater management (pond sites and relocations)	Not in Favor	I have lived in my house for 32 years at 3923 21st Street North. I started working hard when I was 28 years old so that my house would be paid off when I was in my 60's. Now, when I only pay \$648 a month mortgage and \$498 taxes a year for my property, you guys are talking about building an interstate and widening it, and it's going to disrupt my life and ruin my life because I've lived in St. Petersburg, Florida my whole entire life, except 4 for five years.	Ms. Watts, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study, attending the public hearing, and for providing comments on the project regarding impacts to properties. Your comments will be included in the official public record for this project.	Detailed Response		
						My parents moved me here when I was five, in 1965. I went to elementary, I went to middle school and I went to high school and I went to college here at St. Pete College. So you're going to get rid of a good citizen because there's no houses I can buy for what I have. And it's almost paid off. And that's sad. And I work in Tampa, so I'm up there every day. And this is breaking my heart because you just destroyed my dreams of 32 years. I raised my daughter in that house. I brought her home from Bayfront. She went to school here. I mean, there's a lot of history. And it's sad. And you're not going to give me	For more information on locations where additional rights-of-way are required for stormwater management facilities, please access the project website and review the Preliminary Engineering Memorandum (DRAFT) under the Public throulvement-Project Documents tab at http://active.fdotd7studies.com/0275/54th-to-4th/. The draft Concept Plans attached to this memorandum show all areas where additional rights-of-way are required.			
						enough money to even come close to what I have now. All I'm going to do is have to start over while you open up expressways that make billions. So that's how I feel. And I wanted you to know that you've broken my heart.

Jim Dietnch	james. dietrich32@yahoo.com	10/4/2019 1863 /cth Ave N, St Peter 33702	sburg, FL Website Comment	Drainage or stormwater management (pond sites and relocations); Transit Support	Not in Favor	This redesign of the 1-276 expansion through Pinellas County is not acceptable. Lives are being upended by expanding the right-of-way into people's homes, and two toll lanes in each direction will not ease congestion as much as anticipated. Look at South Florida and the toll lanes on 1-95 as an example. The way this project originally existed, with an additional lane in each direction and the median unbuched for future transit options, is perfect for a sustainable city like SP. Petersburg, it helps ease traffic while providing opportunity to plan for smart growth, as Pinellas is pretty much built out with no room for transit options that aren't built on pillars like the Selmon Extension down Gandy Bled in Tampa. It also requires minimal ROW expansion, which doesn't hurt neighborhoods like mine while still providing relief and benefit to commuters. Pinellas is still growing, even if we have no space to do so. We need the ability to accept transit options that will inevitably occur. Moving forward with this redesign expansion of much-needed regional transit. Better ideas would be Bus Rapid Transit in the median that would connect into the proposed BRT lanes with the forthcoming Howard Frankland Bridge expansion, at least until something permanent is designed to connect the region. Paving it over with toll lanes pretty much ensurers all will never exist there, even if it's something Hillsborough County finally builds to Westshore, hindering our future options to get citizens of St Petersburg to Tampa International Airport and beyond. Please reconsider the original proposal of one extra lane each way from 1375 to Gandy Blvd, and leave the median alone for now. This is the best way for us to proceed as a community and a region, and it does the least amount of damage to communities like mine while providing the greatest ent benefit.	As discussed at the public hearing, the proposed express lanes would be available for use by Bus Rapid Transit (BRT) and Express Bus services, and plans are currently being prepared to allow for Bus on Shoulder operations along I-275 between Gandy Boulevard and I-375. Additional information on the Bus on Shoulder pilot project may be found at	Detailed Response	Add to project mailing list

Mark Ballenger	mark@ballengerirrigation.com	9/24/2019 2335 64th PL N, St. Pete, FL 33702	Hearing Formal Oral Comment	Drainage or stormwater management (general flooding); Concern about Noise Barriers Impacts	Not indicated	My name is Mark Ballenger. I live at 2335 64th Place North. It's a little community of 26 home sites called the Oaks of Meadowlawn. I've lived there about 25 years. One of the things I want DOT to address is the problem that expanding the road is going to have on a particular road, 66th Place North and 1-275. It constantly floods whenever there is heavy downpours now, so I'm kind of curious to know what DOT is going to do to mitigate the impact of a larger road that is — a larger road, and now compacting the problem there on 65th Place North. I also have, and many of our neighbors have in this area some larger trees that apparently it will fall within the installation area of the noise abatement wall, or the noise barrier wall. And we're concerned of the damage and we need to know if PDOT is oging to engage an arborist to do a study to make sure that these trees will not	providing comments on the project. Your comments will be included in the official public record for this project and you will be added to the project mailing list. The Re-evaluation effort included evaluations of stormwater and noise impacts associated with planned improvements.	Detailed Response		
						be impacted, and if they are impacted, then they will do something to remove them and replace them. And one other thing, one last thing, I'd like for you-all to do is stop calling this an express lane. Please call it what it is: It is a to lane. And I think it's confusing to many people who read this that see it says "express lane," they are unaware it says it's a toll lane. Thank you	The evaluation of stormwater impacts resulted in recommendations for new stormwater management facilities and the noise study resulted in a recommendation for the construction of noise barriers along segments of I-275. For information to the proposed location of stormwater management facilities and noise barriers, please access the project website and review the Stormwater Management Facility Sting Report (DRAFT) and the Noise Study Report Update (DRAFT). The reports can be found under the Public Involvement-Project Documents tab at http://active.fold/15/udises.com/27/5/54th-

		33704 9/24/2019 4590 Ulmerton Road, Clearwater, FL 33702 9/24/2019 340 Pinelias Bayway S, #307, Tierra	Comment Hearing Written Comment Hearing Formal	Support for Project		I am in favor. It is important that our community plan for the growth properly. The realignment and expansion of I-275 in Pinella County is key. I've been a frequent traveler into South Florida and also been a frequent user of some of the managed toil lanes in South Florida. I'd rather have a managed toil lane than no road at all. I've been able to take advantage of those and save significant amounts of time. Yes, I've paid 10 or \$15 for a toil to go from Miami to Ft. Lauderdale, but that was 24 miles. 50 cents a mile, saving half an hour or more during rush four, seems like a pretty good deap. So I'm a supporter of the managed access lanes. And I saw many, many express buses take advantage of those lanes as well Likewise, I appreciate FDOT getting ahead of traffic congestion on 275 in Pinellas County. Unlike Tampa and Orlando, and of course, South Florida, we have an opportunity to solve the problem before it becomes a big mess. And we have a great opportunity to do that and do that quickly before growth takes over and moves forward in construction there. But likewise, I'm also very concerned about some of the other access, particularly for evacuation for those of us that are in south Pinellas County. We've also had some potential impact with other residential streets such as 34th Street South and 25	Mr. Reed, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. Mark Calvert		33704 9/24/2019 4590 Ulmerton Road, Clearwater, FL 33702 9/24/2019 340 Pinellas Bayway S, #307, Tierra Verde FL, 33715	Comment Hearing Written Comment Hearing Formal Oral Comment Hearing Formal Oral Comment	Support for Project Support for Project	În Favor	I am in favor. It is important that our community plan for the growth properly. The realignment and expansion of I-275 in Pinella County is key. I've been a frequent traveler into South Florida and also been a frequent user of some of the managed toll lanes in South Florida. I'd rather have a managed toll lane than no road at all. I've been able to take advantage of those and save significant amounts of time. Yes, I've paid 10 or \$15 for a bill to go from Miami to FL Lauderdale, but that was 24 miles. 50 cents a mile, saving half an hour or more during rush hour, seems like a pretty good deal. So I'm a supporter of the managed access lanes. And I saw many, many express buses take advantage of those lanes as well Likewise, I appreciate FDOT getting ahead of traffic congestion on 275 in Pinellas County. Unlike Tampa and Orlando, and of course, South Florida, we have an opportunity to solve the problem before it becomes a big mess. And we have a great opportunity to do that and do that quickly before growth takes over and moves forward in construction there. But likewise, I'm also very concerned about some of the other access, particularly for evacuation for those of us that are in south Pinellas County. We've also had some potential impact with other residential streets such as 34th Street South and 25 Pasadena Avenue for lane elimination, which doesn't help for local access and also does not help for any evacuation needs as well. So I'm excited that this project is being considered and planned, and I'm — and it's good for evacuation, it's good for access, it will be good for transit. Thank you. And as well as improved mobility for everybody. Thank you. I'm Sharon Calvert and I live in Tierra Verde and I also support the preferred bill that will implement two managed lanes in ead direction. I believe this will be a good fit with the Gateway Express and the improvements that will be made to the Howard Frankland Bridge and on into Tampa. I am also concerned. I live in Tierra Verde and 1 also support the proje	Mr. Reed, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. It is important that our community plan for the growth properly. The realignment and expansion of I-275 in Pinella County is key. I've been a frequent traveler into South Florida and also been a frequent user of some of the managed toil tanes in South Florida. I'd rather have a managed toil tane than no road at all. I've been able to take advantage of those and save significant amounts of time. Yes, I've paid 10 or \$15 for a toll to go from Maimi to Ft. Lauderdale, but that was 24 miles. 50 cents a mile, saving half an hour or more during rush hour, seems like a pretty good deal. So I'm a supporter of the managed access lanes. And I saw many, many express buses take advantage of those lanes as well Likewise, I appreciate FDOT getting ahead of traffic congestion on 275 in Pinellas County. Unlike Tampa and Orlando, and of course, South Florida, we have an opportunity to solve the problem before it becomes a big mess. And we have a great opportunity to do that and do that quickly before growth takes over and moves forward in construction there. But likewise, I'm also very concerned about some of the other access, particularly for evacuation for those of us that are in south Pinellas County. We've also had some potential impact with other residential streets such as 34th Street South and 25 Pasadena Avenue for lane elimination, which doesn't help for local access and also does not help for any evacuation needs as well. So I'm excited that this project is being considered and planned, and I'm — and it's good for evacuation, it's good for access, it will be good for transit. Thank you. And as well as improved mobility for everybody. Thank you. I'm Sharon Calvert and I live in Tierra Verde and I also support the preferred bill that will implement two managed lanes in each direction. I believe this will be good for transit. Thank you. I'm Sharon Calvert and I live in Tierra Verde and 275 is my gateway out. We need that access and capacity for evacuation as well as just use. And I am concerned that	Mr. Reed, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. Alan Petrillo	Petrillo.alan@gmail.com	9/24/2019 1242 14th Ave N, St. Petersburg, FL 33705	Hearing Written Comment	Mixed Support for Project	Mixed	Some of the design elements of the design change have merit, and some don't. I support the addition of bicycle and pedestrian infrastructure, and the improvement of watershed improvements. The express lanes, and bus on shoulder development, however, are bad ideas. Express lanes don't work. They have never improved congestion anywhere they've been used, and they won't work here either. We cannot pave our way out of our congestion problem. Rather than trying to recreate the Katly Expressway in St. Petersburg, we need to develop a real, credible mass transit system. Mass transit now! Bus on Shoulder is a bad idea. If you're going to give bus a lane then give the bus a lane. The shoulder is for emergencies, not buses. I support the streamlining of lanes. I support the addition of bicycle and pedestrian infrastructure. I support the improvements to the watershed. I oppose the express lanes and the bus on shoulder.	Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. Alan Petrillo	petrillo.alan@gmail.com	9/24/2019 1242 14th Av N, St. Petersburg, FL 33705	Website Comment	Mixed Support for Project	Mixed	lanes do not improve congestion. If anything express lanes make congestion worse. Nowhere express lanes have been tried has seen congestion improve. Miami built express lanes and their congestion has gotten worse. Express lanes have not worked anywhere else they've been built and they won't work here. Bus on shoulder is one of the worst ideas in the long, sad history of bad ideas. The shoulder, the emergency lane, is for emergencies not busses. If you want to give busses their own lanes then give them lanes.	Mr. Petrillo, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. John Estok	Johnestok@hotmail.com	9/24/2019 2035 Philippe Parkway, Safety Harbor, FL 34655		Opposition to Project or Toll Lanes; Ramp Design Issues	Not in Favor	Good evening. My name is John Estok. I live in Philipe Parkway, in Safety Harbor, Florida. I live in Safety Harbor, so I don't have properly homeower issues, so I'm little different. The first thing I wanted to say is we don't need these toll alnes. The tolls are a rationing device. We do need one additional lane south of Gandy to north of 375, but it doesn't need to be a toll lane. The tolls, in case you don't know, won't come close to paying for these lanes or better transit services that we have been told come with them. The biggest problem is not a lack of lanes, it's too many interchanges in too short of an area. These kind of roads aren't designed to have interchanges every mile, let alone every half a mile or less, which is what we have in some places in Tampa and St. Peter. The biggest problem with too many interchanges that we do have is that they were not designed properly in that they result in weaving — the weaving as cars enter from the onramp and have to weave around cars having to go off an offramp, and vice versa. And this weaving that I spoke about causes the bottleneck and congestion we all get stuck in. What do I think we do need to do? Well, with 275 southbound, I think we need any on/entrance ramp from Roosevelt Boulevard, 118th Avenue and the Gateway Express that they're working on to enter in a single lane ramp that either enters in the left first lane, or at the very least is a, what's known as a basket weave with the Gandy offbound ramp, so that would preven them from bottlenecking. That is, they don't weave together. And second, that the onramp to 275 south that comes from Gandy east and westbound enter into a new single fourth lane. They are doing a single lane, but it's not going to be in a fourth lane; it will have to merge in. 275 northbound, a ramp Gandy eastbound that enters into the left fast lane and an onramp from Gandy westbound, that's currently not even available. It's an incomplete interchange. That's too big of an interchange for it to be incomplete like that. And it a	and for providing formal comments on the project. Your comments will be included in the official public record for this project. For more information on this project, please see the project website: http://active.fdotd7studies.com/i275/54th-to-4th/. Beth Connor	Bethyconnoe@gmail.com	9/26/2019 636 64th Ave S, St. Petersburg, FL 33705	Website comments	Support for Transit; Opposition to Project or Toll Lanes; Support for Elevated Roadways; Drainage or stormwater management (pond sites and relocations)	Not in Favor	Where are the plans for mass transit with in this footprint? Why aren't there alternatives for double decking for through traffic from the Skyway to the Howard Franklin? You have not even addressed the fouled up NB entrance ramp from Pinellas Polin Drive to I 275 where drivers run out of pavement before being let into traffic from Bradenton. Stormwater retention should not take economically important property or people's homes. More thought and consideration must be put into this. Most importantly I ADAMANTLY OPPOSE TOLLS ON OUR INTERSTATE SYSTEM BOTH LOCALLY AND STATEWIDE. Please keep re-work this design and bring it back for review. Then hold more public hearings.	Ms. Connor, Thank you for interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. Your comments will be included in the official public record for this project and we will add you to the project mailing list. Ashon Nesbitt	ajnhundred_98@hotmail.com	10/1/2019 14329 Haddon Mist Drive	Website Comment	Support for Transit; Opposition to Project or Toll Lanes	Not in Favor	Two express lanes in each direction is simply excessive and unnecessary. Growth in St. Petersburg is much more likely to increase demand for transit and other forms of transportation on surface roads as it is the result of growing density in it's neighborhoods and not as much from suburban commuters compared to Tampa. The space for the second express lane should be reserved for rail transit, whether that is extension of the coming high-speed rail from downtown Tampa to downtown St. Petersburg, local light rail system, or a true gold-standard bus rapid transit system with rail-like features (real stations, ticketing, high-frequency service).	Mr. Nesbitt, Thank you for your interest in the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study and for providing comments on the project. Your comments will be included in the official public record for this project and you will be added to the project mailing list. As discussed at the public hearing, the proposed express lanes would be available for use by Bus Rapid Transit (BRT) and Express Bus services, and plans are currently being prepared to allow for Bus on Shoulder operations along I-275 between Gandy Boulevard and I-375. Additional information on the Bus on Shoulder pilot project may be found at http://www.fotomapabay.com/project/466/44364-1-52-01.		Add to project mailing list
Toby Vongkoth	t.drivepj@gmail.com	9/24/2019 8464 Martin Lane, Seminole, FL 33777		Support for Transit; Opposition to Project or Toll Lanes	Not in Favor	My name is Toby Vongkoht. I live at 8164 Martin Lane in Seminole. I just heard about this a couple hours ago on Facebook, so I decided to sky mork and come here instead. And what concerned me the most about this project as a far as Sepment B and C goes is that express lanes, also called Lexus lanes, are going to be added to the major corridor for transporting people and goods, and I just kind of think that's not really the most - I don't want to say broader way of looking at the transportation issue here. I know congestion is a huge problem on the other side of the Howard Frankland Bridge and the other plans a couple years ago regarding that bridge and extending express lanes or potential light rail on that bridge would be possible, and kind of going along with those lines. I kind of think maybe designated bus lanes would be a little bit more apropriate for its area, mainly because, I mean, the amount of people that you can fit into a bus versus the amount of cars take up similar space, it's just kind of ticking become to be in their cars. And also, especially since there's a lot of people that you can fit into a bus versus the amount of cars take up similar space, it's just kind of off into a man and the proper similar space, it's proposed to the proper similar space, it's proposed to the proper similar space, it's proposed to the proposed similar space, it's proposed to the proposed similar space, it's proposed	Thank you for your attendance at the I-275 (SR 93) Design Change Re-evaluation of the PD&E Study Public Hearing and for providing formal comments on the project. As home owners in the Meadowlawn Sawgrass Addition - Weash
to please reconsider the plans to remove it homes at the and
of 164 Place to be used to extend a refertion pond for F-275.
Instead glease consider using The School board
property at Sougross Elementary School or please also
consider the alkindra to extend a retention pand in
the saugrass wetlands.
Please leave our neighborhood intact, We are also concerned
about possible flooding by removing our designated Sangras
addition pond. The two other alternatives would not distort
homeowners Thank you.

Comments:

Two express lanes in each direction is simply excessive and unnecessary. Growth in St. Petersburg is much more likely to increase demand for transit and other forms of transportation on surface roads as it is the result of growing density in its neighborhoods and not as much from suburban commuters compared to Tampa. The space for the is extension of the coming high-spect and if from downtown Tampa to downtown St. Petersburg, local light rail system, or a true gold-standard bus rapid transit system with rail-like features (real stations, ticketing, high-frequency service).

Comments:
As a homeowner, with a home that sits with 1275 in the back yard. I want to be assured that a privacy/soundbarrier wall is going to be implemented for the stretch of traffic from 54th St to 4th St. The traffic sounds, dirt and grim are worse than ever before and will only increase with these chages effecting our homes, property values and safety.

Concerns I'm sure all in this area are concerned with.

Comments:

The improvements are needed now. Traffic routinely backs up all through the corridor during rush hour. We have been traveling this stretch of 1-275 for over 40 years. There have been limited improvements during that timeframe to this corridor to provide for the increasing capacity of folks communiting to from the south from Starnsota and Manatee County. Due to the lack of capacity improvements over the years the system is now failing and requires improvements that cost too much and require a toll(express) to pay for them. Just doesn't seem right. Interim improvements should have been done 20 years ago. Design-Build it now with no toll/express lanes! Increase the gas tax if you have to or put a big toll boort guartry at the north end of the Skyway coming into St Pete where the additional trafffic is coming from. St Pete has been pretty built out for quite some time.

Comments:

I am writing this letter in opposition to the selection of site 18 A for the FDOT District 7 I-275 widening project.

As a homeowner in the neighborhood adjacent to the proposed area to be taken, I am very opposed to the alteration of the present water drainage system that has worked so well for the past 20 years. To remove four homes, 1,21 acres of forested wetlands, reduction of natural vegetative noise buffering, and a water retention pond currently in place in the neighborhood, only to replace them with a storm water management facility that will not only be an eye sore that threatens property values, but will change the way that water drains in the area, and potentially introduce more flooding to the area, as the proposed 9-foot tall, four area retention pond is a danger to roughner and flood the area in the event like a 100-year storm. We do not even know where everylay water/drainage will be routed now.

The proposed site of government-owned soccer fields on the other side of the canal, originally discussed in 2015 and 2017, which would not affect existing homes or neighborhoods and cost slightly over \$600,000 (as opposed to \$2.86M for site 18 A) clearly appears to be the better, less disruptive

Many of my neighbors are of the same mind in this matter and we will work together to prevent site 18 A being the alternative chosen.

City: St. Petersburg

Comments:
I am opposed to the proposed plan for a retention pond, as it will have a negative impact on the current stormwater system, and will increase our flood risk. (the pond will elevate the community in which I reside) As a 24 year resident in this neighborhood please reconsider this plan.

To: Kirk Bogen

Comments: I have some concerns regarding the selection of a stormwater pond site for basin 18.

The November 2018 responses to comments in Appendix F of the Stormwater Management Facility Stinig Report has a comment mentioning three (3) pond location options for basin 18 (18A, 18B, 8. 18C) with the least desirable being the option that would impact residential property. The response concurred with this view.

One month later, a December 2018 response assumes comment #6 is referencing alternative 18B instead of 18C as there is no pond alternative 18C thus indicating that one of the options has, seemingly, vanished from consideration. Ultimately the siting report settles on the pond location option that impacts residential property in direct conflict with what was stated by both reviewer and consultant in the November 2018 comments and responses.

consultant in the November 2018 comments and responses.

Additionally, the Environmental Look Around Documentation of the SMF Sting Report, Appendix I, has a detail page for ELA opportunity #10 but not one for opportunity #10 opportunity #11 consists of the Sawgrass Lake Elementary School pool location option east of FL75 and north of Turner Creek. Hopefully the lack of a detail for opportunity #11 does not indicate it was being removed from consideration too as it is an alternative that does not impact residential property and the Environmental Look Around itself indicates that it is the PD&E preferred pond in the ELA Approach table.

Comments:
The redesign has some merits and some flaws. Lane streamlining in St.
Petersburg is an excellent idea. The bridge replacements are badly needed. The Watenhed improvements are an excellent idea. Facilities for pedestrians and bicycles are badly needed to reduce our catastrophic history of pedestrian and bicycles ideaths.

Express lanes are a bad idea. Express lanes do not improve congestion. If anything express lanes make congestion worse. Nowhere express lanes have been tried has seen congestion improve. Miami built express lanes and their congestion has gotten worse. Express lanes have not worked anywhere else they've been built and they won't work here.

Bus on shoulder is one of the worst ideas in the long, sad history of bad ideas. The shoulder, the emergency lane, is for emergencies not busses. If you want to give busses their own lanes then give them lanes.

Comments:

I have been selected as a community spokesperson for the Meadowlawn

Sawgmas Addition community which has been carmarked for the

construction of Stormwater Management Facility 18A in the DRAFT PDAE

study. I have prepared documents that would thice have considered

in the selection of the stormwater management for Basin 18 of the

project. I plan to asted the Public Heiseniag on 60 y2 e2 109 and will

sabmit a copy of these documents at that time.

Our community is not in favor of constructing SMF 18A in our neighborhood for multiple reasons and do not understand why other alternatives were not chosen over condoming 4 residential homes and negatively impacting our community as proposed.

Thank you

Not only would it displace numerous families in our neighborhood, and kill the property values of the other homes in the neighborhood, but it wouldn't help with congestion and would kill the chances of correcting St.Pete's biggest issue, mass transit. The mass transit issue is a big part of why the Rays want to leave St. Pete, fans don't come out to the Trop, at least in part, because they can't get to it easily. Traffic from Tampa to St.Pete especially is a challenge, with numerous fans stating they won't make the commute to St.Pete because of traffic. Leave the original idea of expanding to just 4 lanes so that we can fix mass transit and keep St.Pete moving forward in the right direction! Comments:

This redesign of the I-275 expansion through Pinellas County is not acceptable. Lives are being upended by expanding the right-of-way into people's homes, and two toll lanes in each direction will not ease congestion as much as anticipated. Look at South Florida and the toll lanes on I-95 as an example.

The way this project originally existed, with an additional lane in each direction and the median untouched for future transit options, is perfect for a sustainable city like St Petersburg. It helps ease traffic while providing opportunity to plan for smart growth, as Pinellas is pretty much built out with no room for transit options that aren't built on pillars like the Selmon Extension down Gandy Blvd in Tampa. It also requires minimal ROW expansion, which doesn't hurt neighborhoods like mine while still providing relief and benefit to commuters.

Pinellas is still growing, even if we have no space to do so. We need the ability to accept transit options that will inevitably occur.

Moving forward with this redesign sets us back years on much-needed regional transit.

Better ideas would be Bus Rapid Transit in the median that would connect into the proposed BRT lanes with the forthcoming Howard Frankland Bridge expansion, at least until something permanent is designed to connect the region. Paving it over with toll lanes pretty much ensures rail will never exist there, even if it's something Hillsborough County finally builds to Westshore, hindering our future options to get citizens of St Petersburg to Tampa International Airport and beyond.

Please reconsider the original proposal of one extra lane each way from I-375 to Gandy Blvd, and leave the median alone for now. This is the best way for us to proceed as a community and a region, and it does the least amount of damage to communities like mine while providing the greatest net benefit.

	in particular within a mile of 76th Place North where FDOT plans to have a retention ave lived at 1868 76th Place North for over 20 years.	
I strongly object to the plan of putting a retention pond for I-275 expansion on area 18A (76th Place North).		
My objections are as follows:		
Superbowl Parties, and at least on an evening. Most families moved	th is a tight knit community which among other things has Halloween Parties, he block party where most of the neighbors participate and agree to close the street for in about the same time, since the community has been there since about 1995, and tc, and this plan would destroy this community.	
The houses share a flooding system in a canal at the end of the street. This would not only affect our neighborhood, but Meadowlawn just south of 76th Place North.		
The planned retention pond would be elevated enough that a flood would have a serious effect on our properties.		
Our safety is being compromised in an event of flooding.		
Please consider location 18B (north of the 77th Ave N canal) Please consider Sawgrass Park on the west side of I275.		
In either case, please make plans to install sound barriers (walls) to protect our neighborhood from the already noisy 1275.		
Please add me to the mailing list to receive project updates: yes

Our neighbors will be affected by this, since some will lose their houses, and it will add too much noise to the otherwise quiet nature of our backyard. Plus, it removes the option for mass transit, which is something that we need in St. Pete. Yes, the highway needs help, since traffic backs up every afternoon and during many baseball games, but this isn't the way to do it. It doesn't make sense to me to remove transit before we can try it, and hurt working-class neighborhoods in the process. Just stick with the original idea of adding a lane, and let's see what happens with transit in the future. That will help more than you think. To whom it may concern,	
many people say "Well you chose it was cheap. Nothing about buyin homes all over Saint Petersburg. E issues and the destruction of perf the highway. That is financially crippling to man people around here are thinking. noise wall. But anything beyond of market value of their home goes thighway is almost impossible. To while keeping up a mortgage. I how around 38th Ave know that an experience of the saint was a series of the saint	close to I-275, this news is detrimental not only emotionally but financially. I've heard to live close to a highway" but we moved close because it was convenient not because in g a house in Saint Petersburg is cheap. The house was actually at market value to But not only does expanding the highway toward homes nearby cause additional noise feetly good properties but it also decreases the value of homes that are now closer to my who can't afford to pack up and move away from the area, which is exactly what If FDOT wanted to add one additional lane to each side, sure go ahead! But give us a one additional lane is unacceptable especially for those who are stuck here until the up enough to sell. If they can even sell. To find a buyer for a home that is near a find a renter, maybe, but you'd have to have the financial means to move elsewhere up some of this is put into consideration because a lot of us who live near the highway pansion on the Northbound lanes are unnecessary. Any of us can look out the window sn't any traffic issues. Can we admit there is some southbound issues? Yes. But an ld be more than enough.
Thank you for your consideration.

MAILED COMMENTS

Wendy E. Smith 1948 76th Ave N St. Petersburg, FL 33702

September 15, 2019

Kirk Bogen, P.E. Environmental Management Engineer FDOT District 7 11201 N. McKinley Dr. Tampa, FL 33612

Mr. Bogen:

I am writing this letter in opposition to the selection of site 18 A for the FDOT District 7 I-275 widening project.

As a homeowner in the neighborhood adjacent to the proposed area to be taken, I am very opposed to the alteration of the present water drainage system that has worked so well for the past 20 years. To remove four homes, 1.21 acres of forested wetlands, reduction of natural vegetative noise buffering, and a water retention pond currently in place in the neighborhood, only to replace them with a storm water management facility that will not only be an eye sore that threatens property values, but will change the way that water drains in the area, and potentially introduce more flooding to the area, as the proposed 9-foot tall, four acre retention pond is a danger to rupture and flood the area in the event like a 100-year storm. We do not even know where everyday water/drainage will be routed now.

The proposed site of government-owned soccer fields on the other side of the canal, originally discussed in 2015 and 2017, which would not affect existing homes or neighborhoods and cost slightly over \$600,000 (as opposed to \$2.86M for site 18 A) clearly appears to be the better, less disruptive choice.

Many of my neighbors are of the same mind in this matter and we will work together to prevent site 18 A being the alternative thosen.

Wendy F. Smith

I don't think this is related to the Gateway Expressway project. Could the Wence's comments be related to the following?

Project Development and Environment Study from south of 54th Avenue South to north of 4th Street North, Pinellas County, Florida WPI Segment #4245001-1, ETDM #12556

If so, please reply to the Wence's and copy <u>roadwork@dot.state.fl.us</u>. If not, please let me know that, as well, or if you have any leads.

Thanks.

Question or Comment:

We are in the area of the proposed site, (18A) where a retention pond is to be built. As the proposal stands now there are four homes that will be demolished all around our home at a huge cost when there are other vacant land sites 18B and 18C available. We are more than concerned about the flooding that this will cause our neighborhood, especially our home at the end of the cul de sac where it currently is prone to flooding now. Since the four homes, one directly to the west of us and the other three directly to the north of us are to be torn down we are also very concerned about our property value. We purchased this home 24 years ago and later built a front porch so we could enjoy the woods, knowing that nothing could ever be built there. Now are we faced with a commercial 6 foot fence going from the west of our property all the way across our front yard? Nobody wants to live with that, especially when there are other options. We would like to put our opposition the this proposed site on record.

Hello,

I'll be brief as I was planning to attend the Public Hearing/Open House this evening to bring this up for our neighborhood.

Recently a wall was built at the ramp NB from I-275 on to Gandy (around First Baptist Church). However we were disappointed that ii did not go farther south, at least to 65th Pl N. (area included in attached .doc). Through this project, we are requesting that a wall to be added between the canal south of 77th Ave N to 65th Pl N., at a minimum.

We understand the costs involved. However, as you can see in the attached, our property values along this stretch are at an average of \$265K, so we are sold middle to upper middle class incomes. The additional lanes on I-275, while certainly needed will make the traffic and related dangers worse. This expansion will directly impact the property values, and therefor the investments of all of us along the interstate and even those properties near those houses. A wall along I275 would certainly help reduce the impact of the expansion to our properties.

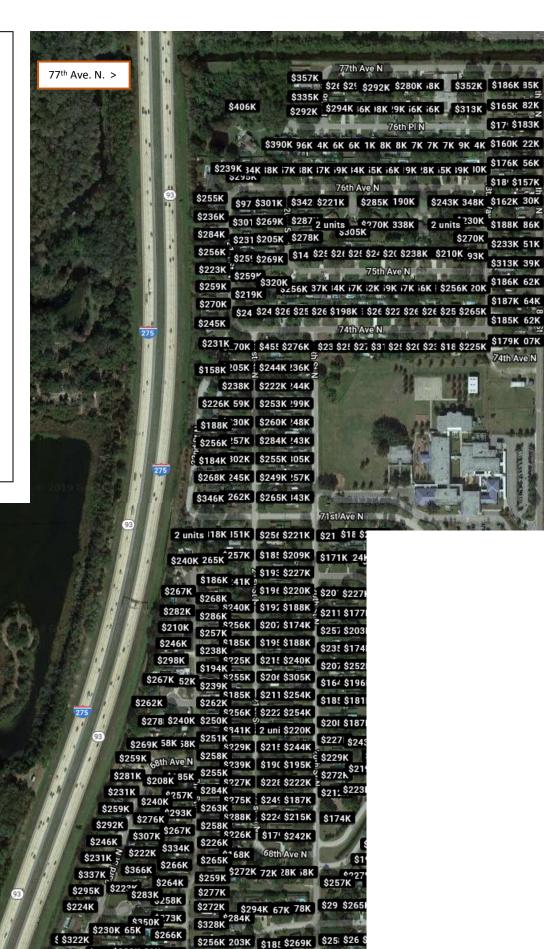

Our property does **not** back up against I-275. But I have been in the back yard on 2 occasions where debris has landed in our yard from I-275. Once it was from a blown tire. The piece of tire was so hot, you could not pick it up. We have kids, and yards pools that do back up to I-275. We do not want our family hurt by the debris, that will now be coming from a source even closer to our homes.

Please let me know if I should direct this to someone else for further consideration or if I can provide

additional information to support our request.

Thank you, Betty From Zillow 9/2019 to show property values along I-275, which includes part of the I-275 lane expansion

These 2 pgs of images spans from 77th Ave N south until 62nd Ave N

Subject: I-275 Re-evaluation, Segment B

EXTERNAL SENDER: Use caution with links and attachments.

Hello Ashley,

Thank you for sending me the updated information on the project.

I would like to comment that in my uninformed opinion, I think it makes more sense to put elevated roadways above the existing highway.

It means less affected parcels and storm water mitigation issues. \$\$\$

Also, 3 lanes could be added above the existing 3 lanes, in each direction I am only talking about segment B.

If you count the traffic across the Skyway, and that continuing on from Park Blvd, it would seem to make more sense.

All you have to do is look at the Tampa Westshore area to the I-4 corridor to see this line of thought.

So we are not building a bypass around the city, but rather 1 thru it.

Thank you for your time in allowing me to Pontificate on this issue.

Best regards,

Chuck Boux
